- AI-Orchestrated Workflows

Innovate Everywhere

Microsoft AI Solutions

Stellium is based on Microsoft's technological foundation, which offers different types of solutions for the integration of AI within companies.

COPILOT

Automate routine tasks
Generate meeting notes,
write emails, create
presentations, and more.

COPILOT STUDIO

Design personalized chat
experiences, automate
workflows, integrate data
from external sources, and
more.

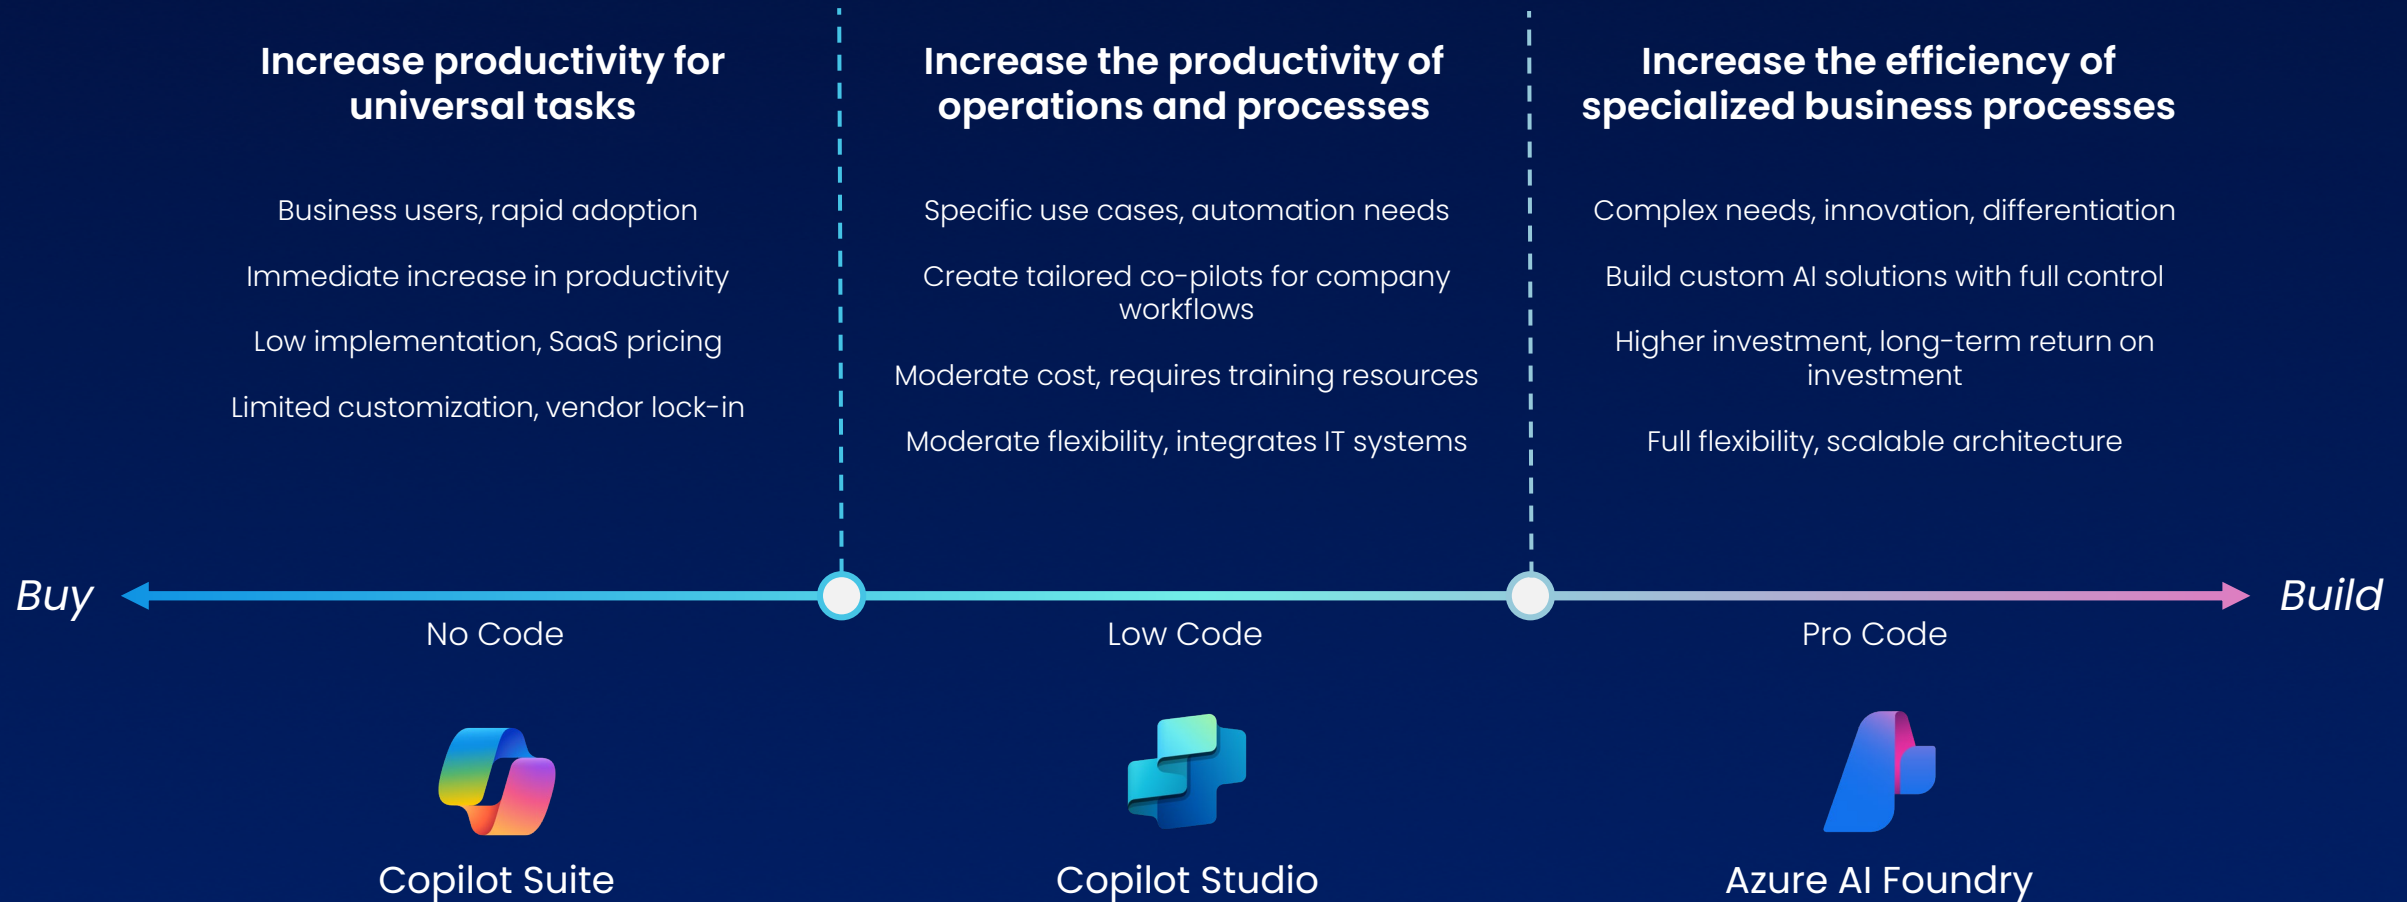

AI FOUNDRY

Build AI models, integrate
them into custom
applications, perform
advanced data analytics.

AI Solution – Buy VS Build

We can classify the available solutions according to the "buy vs build" concept, it is a question of choosing the most relevant approach for your company and your use cases.

M365 Copilot AI Services

Copilot for M365 – Pilot Planning

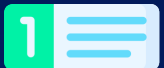

Execute a 30-users pilot in 6 weeks

- 🎯 Validate Copilot value
- 🎯 Test quality of insights on your data
