

**Trio Education,**  
Ensuring Students'  
Digital Safety

A young girl with voluminous, curly brown hair is the central focus, smiling warmly as she looks down at a black smartphone held in both hands. She is wearing a vibrant magenta long-sleeved shirt. The background is softly blurred, showing a woman in a yellow top standing near a window, talking on a mobile phone. The overall atmosphere is bright and positive, suggesting a modern educational or professional setting.

Empower Your School  
with Trio Education

## What Is Trio Education?

Trio Education is a powerful platform designed to help schools and educators manage students' online and app activities during school hours. Offering real-time oversight, it helps maximize productive device usage while enhancing internet safety. With features that promote focused app usage and minimize distractions, Trio Education creates a safer, more concentrated learning environment.

## About Trio

Trio is a leading tech company specializing in cutting-edge asset management solutions for businesses of all sizes. With a team of dedicated professionals, Trio is committed to delivering top-quality solutions by continuously exploring new technologies and trends. The company's core values of innovation, simplicity, and high-quality support ensure that clients receive exceptional service throughout their partnership with Trio. By focusing on delivering customized solutions that meet each client's unique needs, Trio is a trusted partner for businesses seeking to optimize their device management.

## Introduction to Trio Education

Trio Education, powered by Trio, is a comprehensive digital safety solution built specifically for educational institutions. Its mission is to foster a secure online environment, promote students' digital well-being, enhance academic focus, and protect data privacy. Designed to meet the unique needs of schools, Trio Education offers a complete solution for tracking device usage, and supervising online activities. With the ability to monitor students across any network, it provides peace of mind for both school authorities and parents. The user-friendly interface ensures easy installation and seamless operation, making it an ideal choice for schools looking to improve digital safety and oversight.

## Devices Supported by Trio Education

Trio Education supports a wide range of devices, categorized by their operating systems to ensure flexibility and compatibility across various platforms. The supported operating systems include:

### 1. Operating Systems:

Windows

macOS

iOS

Android

ChromeOS

This broad compatibility ensures that Trio Education can be seamlessly integrated into virtually any school's existing technology infrastructure, regardless of device type or ownership.

### 2. Device Ownership Categories:

Trio Education supports two primary categories of device ownership, ensuring flexibility and security for both students and schools:

#### a. Student-Owned Devices (BYOD - Bring Your Own Device):

Devices owned by students but used for educational purposes within the school. Trio Education ensures that both personal and school data remain secure through containerized work environments, protecting privacy while maintaining control over educational activities.

#### b. School-Owned Devices (SOD):

- **Fully Managed Devices:** Devices used exclusively for educational purposes, fully controlled by the school.
- **Single-Use Devices:** Devices limited to specific applications for targeted educational tasks.

These categories allow Trio Education to effectively manage a variety of devices in educational settings, offering tailored solutions that balance flexibility, security, and control for schools, teachers, and students.

## Key Features of Trio Education

Trio Education is an innovative platform with tools to track device usage, and supervise online activities, ensuring a safe and focused learning environment. Its user-friendly interface allows for easy installation and operation, making it an ideal solution for schools.

**1. Digital Safety:** Trio Education ensures students' digital safety with advanced cybersecurity measures and strong data privacy protections.

**2. Comprehensive Monitoring:** Schools can easily oversee student attendance, track device usage, and supervise online activities, all from an intuitive interface.

**3. Detailed Reports:** Trio Education's in-depth, comprehensive reports provide insights into device usage, internet activity, and student behavior.

**4. Location Services:** The system enables administrators to locate students in and around the school, review their location history, and implement geofencing for improved campus management.

**5. Centralized Dashboard:** Users can access key data, including screen time statistics, visited websites, frequently searched keywords, and a list of all connected devices.

**6. Profile Management:** School staff can set Smart App Rules and manage different profiles for various classes and connected devices, ensuring tailored web and app usage.

**7. Staff Management:** Trio Education enhances collaboration among school staff by providing customizable access levels and administrative controls.

**8. Multi-OS Support:** Trio Education is compatible with iOS, macOS, Windows, Android, and ChromeOS, ensuring seamless integration across all devices.

**9. Classroom Management:** This feature is designed for organizing and managing classrooms, assigning profiles, and pairing student devices.

**10. Custom Alerts:** Users can stay informed with alerts for blocked websites, flagged keywords, low battery levels, and new device connections.

**11. User and Device Identification:** User and Device Identification allows school staff to assign devices to individual students for precise monitoring of their activities.

**12. In-app Messaging:** In-app Messaging facilitates communication with students and parents to ensure their well-being and address concerns promptly.

**13. Integration with Trio Family:** Trio Education enables schools to partner with parents to monitor children's digital activities, providing a dual layer of protection.

With these features, Trio Education offers a comprehensive solution for schools, enhancing digital safety, promoting academic focus, and enabling efficient device management across various platforms.

## Why Choose Trio Education?

Trio Education is dedicated to creating a safe and supportive online environment for schools, helping students focus on their academics while protecting their digital well-being. This platform enhances communication and collaboration between teachers, students, and parents, all while safeguarding data privacy. By eliminating cyber threats and minimizing distractions, Trio empowers students to prioritize their studies, sports, and extracurricular activities, leading to a more balanced and successful educational experience.
