

Trio Education: Empowering Secure and Efficient Learning Environments

Product Summary

Trio Education is an innovative Educational Technology (EdTech) solution for enhancing school safety, boosting learning efficiency, and improving communications. Trio Education enables teachers to monitor student activity and keep the focus on studies, to create a secure and more productive learning environment.

Key Features

Device Management

- Enroll devices running all major operating systems.
- Track how, when, and where, devices are used.
- Access comprehensive device screen time reports.
- See a detailed history of attempts to access blocked searches and websites on each device.

Class Management

- Create classes and assign teachers.
- Keep data organized for each class, including number of devices and students.

Profile Management

- Safeguard website access, keyword and web searches from all browsers.
- Use application allow-list and block-list controls.
- Set time limits on device usage.

Administration

- Role based access controls for administrators and educators.
- Edit or remove staff from the panel if needed.

Reporting and Alerting

- Monitor application use and web activities for enhanced accountability.
- Receive instant notifications about critical issues like inappropriate content access.
- Analyze collected data to identify trends and make informed decisions.
- Get detailed reports on students' web and app activity and device usage.

In-App Messaging

- Keep a secure line of communication with students and their parents, providing them with updates on school news.

Benefits

• Enhanced Online Safety:

Trio Education provides security features that protect students from online threats and inappropriate content. This ensures a safer digital environment where students can focus on their studies without the risk of cyberbullying, malware, or other online hazards.

• Improved Communication:

The application facilitates better communication between teachers, students, and parents. With features like real-time messaging, notifications, and updates, everyone stays informed and connected, which helps in addressing issues promptly and fostering a collaborative educational environment.

• Increased Productivity:

By helping teachers monitor and manage student activities, Trio Education minimizes distractions and keeps students focused on their educational tasks. This leads to more efficient use of time and resources, ultimately boosting overall productivity in the classroom.

• Better Management of Classes, Devices, and Students:

Trio Education offers comprehensive tools for managing classrooms, devices, and student activities. Teachers can easily organize classes, track devices, and monitor students' online activity. Device management features ensure that all student devices are used appropriately and efficiently, streamlining administrative tasks and enhancing the learning experience.

Technical Specifications

With Trio Education's agent app, 'Trio Student,' schools can monitor activity on Apple devices, including iOS and iPadOS (17 and higher) and macOS (Intel and Silicon with Sonoma, 14.0 and higher). Additionally, Android (7 and higher), Windows (10 and higher), and ChromeOS (latest update recommended) devices are also supported and protected by Trio Education agents.

The agents are available on major app markets such as Play Store, App Store, and Trio Education's official website.

Regulatory and Compliance Information

Trio prioritizes data security and Trio Education adheres to the highest industry standards. We have achieved the following certifications, as product of Trio:
