

Digital Upskill Program

Boost results and drive sustainable change throughout your organization. Get support from Storyals Productivity Experts to train and encourage new digital ways of working. Level up your business with engaging training and proven results!

Overview

The Digital Upskill Program is designed to complement Storyals training courses and builds on our proven learning process.

Storyals experienced Productivity Experts help you drive digital upskilling and boost results throughout your organization.

Get a training plan that fits your needs and support your employees every step of the way.

A dedicated Customer Success Manager provides continuous tips and recommendations, unlimited answers to Microsoft 365-related productivity questions and the support you need to succeed with sustainable upskilling for the modern workplace.

Key Benefits

- Dedicated Customer Success Manager
- Focused quarterly webinars with our Productivity Experts
- Customized training plan to align with your needs
- Focused Teams channel for continuous support

Storyals proved agile enough to work with us and adapt to our needs. To help us navigate and work with us closely. The interaction with people from Storyals directly was key and the training courses were also very well done, based on real-life, relatable - and not boring!

Victor D'Amato, VP Corporate Controller at Ulbrich
