

# Synerosis 365 - Product Information Sheet

## Overview

Synerosis 365 empowers businesses to connect seamlessly with Strategnos Cloud to unlock AI-powered analytics, embedded Power BI reporting within Outlook, and intelligent insights into their business data. Built for modern enterprises, Synerosis 365 brings data-driven decision making right into the Microsoft 365 ecosystem.

## Key Features

- > Strategnos Cloud Integration - Connect and automate processes across your organization.
- > Embedded Power BI Reporting - Deliver insightful dashboards directly inside Outlook.
- > AI Analytics for Power BI Workbooks - Unlock deep insights from your Power BI data.
- > Flexible Subscription Plans - From Trial to Enterprise levels.
- > Secure and Scalable - Built on Azure for enterprise-grade security.

## Benefits

- > Seamless integration with Microsoft 365 and Outlook
- > AI-driven analytics to uncover hidden insights
- > Reduce context switching with embedded reporting
- > Scalable for teams of all sizes
- > Backed by Strategnos and powered by Azure
