

MICROSOFT 365 MODERN WORKPLACE

Robust business technology is integral for any modern business that wants to thrive in today's cloud-first environment.

At Stripe OLT, we believe digital transformation is about more than just updating your technology; it's about enhancing your current processes, employing new ways of working, adapting to an ever-changing business environment and crucially, about empowering your workforce.

As Microsoft cloud and security experts, we know the Microsoft 365 Modern Workplace is the answer.

Combining Office 365, Windows 10 and Enterprise Mobility + Security (EMS), the Microsoft 365 Modern Workplace provides an advanced, secure and intelligent operating system that will transform your organisation, providing you and your team with a truly modern workplace.

WHO IS IT FOR?

Our Microsoft consultancy services are for any business looking to thrive in today's digital landscape, particularly if productivity, continuity and security are a top priority.

WHAT TO EXPECT FROM MICROSOFT 365

INCREASED COLLABORATION

With Microsoft 365 you gain a combination of all your familiar **Office** apps, including key business tools like **PowerPoint**, **Word** and **Excel**. Everything is at your fingertips as your team have the power to create, share and co-author documents, without the need to switch between applications.

IMPROVED SECURITY

Within the Microsoft EMS security stack you have the power to take back control of your business security. Gain security insights and proactively defend against cyber threats, with **Azure Active Directory**, **Microsoft Intune**, and **Windows Information Protection**.

ENHANCED COMMUNICATION

Microsoft 365 has been built with productivity and efficiency in mind. Through utilising the key collaboration tools like **Teams** and **SharePoint**, teamwork is empowered and processes streamlined.

TASK AUTOMATION

Within Microsoft 365 is Microsoft **Power Automate** – By automating tasks you can quickly boost productivity, providing employees with more time to focus on innovation than administration. You can automate time-critical tasks using the built-in AI capabilities and integrate with key business applications.

HEIGHTENED MOBILITY

Utilising the power of Microsoft's cloud platform, **Azure**, you can securely manage and monitor your custom business applications from one flexible platform.

CORE APPLICATIONS WITHIN THE 365 ECOSYSTEM

OFFICE 365

Microsoft 365, formerly known as Office 365 brings all of your office apps together, alongside cutting edge business tools like SharePoint and Exchange Online. In doing this Microsoft have created a digital collaboration space to simplify work and improve traditional working processes.

SHAREPOINT

Microsoft 365 is a productivity and sharing platform, SharePoint encourages innovative work practises across your organisation. Build sites, communities and content to reach teams, departments and company wide users.

TEAMS

A modern workplace is incomplete without channelling the power of Microsoft Teams. The shared communication platform encourages innovative work practises across your organisation. Meet, chat and collaborate with different users and groups, all whilst facilitating live updates on documents to create a truly hybrid workplace.

INTUNE

Trusting your employees to thrive in a multi-device workplace is integral for any modern organisation. Microsoft Intune combats any security concerns through robust mobile device management (MDM). With Intune you'll protect your valuable business data and control who has access to your network, what they see and what they can do.

ENTERPRISE MOBILITY + SECURITY

Strong cyber security is now integral to any business. With Microsoft EMS your organisation has access to a world of security technologies to facilitate complete security management. From user insights and tracking to document encryption and protection, EMS is a full security solution.

WHICH MICROSOFT 365 SOLUTION IS BEST FOR ME?

Microsoft 365 has been built to suit a range of budgets and business sizes, so your modern workplace solution will be as unique as your organisation.

Access SME centric plans like Business Standard and Business Premium or utilise enterprise solutions like E3 & E5.

Not sure what's included in each plan?

Our experts will take you through all of the 365 solutions to ensure you choose the right plan

OUR APPROACH

- 1** We carry out a **Discovery & Audit** of your IT systems and processes.
- 2** We carry out a **Technology Gap Analysis & Risk Register**, to benchmark your existing technology, against your new requirements.
- 3** We provide you with a **Project Definition**. Here we collate our findings and provide you with a detailed project road map, so your key stakeholders know exactly what's happening and when.
- 4** Following build, we'll carry out the final phase, **Service Launch & User Engagement**. Prior to implementation, we rigorously test any new systems and educate your users, so you're completely prepared for your modern workplace solution.

HOW MUCH DOES IT COST?

Depending on the modern workplace solution that best aligns with your business goals, your modern workplace transformation will be as unique as your business.

As such, our Microsoft experts will provide you with a bespoke and flexible plan, costed on requirement.

For more information, contact one of our experts today.
