

## Create & Auto-Grade Exams with Gen-AI

---

StudyWise is revolutionizing education with AI-powered tools that transform how exams are created, graded, and analyzed.

We save 90% of the time educators spend on these tasks, freeing them to focus on what truly matters—engaging with and inspiring their students.

### The Need

Educators are overwhelmed with the time-consuming tasks of creating, grading, and analyzing exams, leaving less time for student interaction.

Students lack efficient tools for practice and detailed performance feedback.

### The Solution

- **Generate Exams:** Create customized exams tailored to each educator's style.
- **Auto-Grade Exams:** Instantly grade exams and generate detailed performance reports.
- **Performance Analysis:** Provide actionable insights and trends to enhance learning.

**We save educators 90% of the time they spend creating and grading exams**

### Why Us?

- **Match Educator Approach:** Personalize results to each educator's exam method.
- **All-in-One Platform:** Seamless exam creation, grading, and analysis.
- **Customizable Auto-Grading:** AI grading aligned with teachers' styles.
- **LMS Integration:** ensuring a smooth and seamless experience.

### Achievements

- Created over 100,000 assessments
- 80,000+ registered users
- 5,000+ global educators

”

“I was genuinely impressed by the platform's results - it was incredible. Having worked with AI for a year and a half, it's not easy to impress me quickly, but this certainly did. It saved me a significant amount of time and allowed me to concentrate on what I truly love-teaching.”
