

# UPGRADE TO THE CLOUD

with

## SUNRISE TECHNOLOGIES

Sunrise is your path to discover the power of the Azure cloud.

Unleash Azure cloud capabilities with Sunrise Technologies at your side.

Migrate to the cloud to:

- Free up IT resources for mission critical activities
- Visualize your data in new ways
- Create no-code mobile apps
- Help all levels of the organization collaborate more effectively
- Cut costs

## How an On-Prem to Cloud Migration Process Works

### ASSESS

Identify and inventory your on-premise resources to start your cloud journey.

### MIGRATE

Efficiently migrate with minimal business impact. Leverage our migration experience.

### OPTIMIZE

Fine-tune resources to strengthen security, improve performance and maximize ROI.

## DON'T FORGET ABOUT DATA MIGRATION

Data migration is the most critical, yet, most overlooked, component of a new system deployment.

Sunrise focuses on the end-to-end data migration requirements from Day 1.

A successful data migration is the key to your new system.

## STEPS FOR A SUCCESSFUL MIGRATION

Work with Sunrise to:

1. Determine the complexity of your current structure
2. Map the data transformation for your target solution
3. Teach your team to validate the migrated data
