# Dynamics 365 Project Operations: 4-Hour Best-Fit Assessment

If your organization runs on project-based delivery, you know how hard it can be juggling timelines, resources, and billing across spreadsheets or a disconnected ERP. Find out if Dynamics 365 Project Operations can help run your organization with more clarity and ease.

## WHAT TO EXPECT

1

### 4 Hours

A single, focused session with Sunrise solution experts.

2

### Structured Discovery

We evaluate your current operations against D365 Project Operations capabilities.

3

### A Clear Next Step

You receive a best-fit assessment, top 3-5 priorities, and recommended next steps.

## THIS OFFER IS DESIGNED FOR

Professional services, consulting, nonprofit, or other project-centric organizations evaluating a move to a modern, cloud-based project management solution.

## YOUR ASSESSMENT INCLUDES

- ✓ A **best-fit assessment** documenting current-state gaps and how Dynamics 365 Project Operations addresses them
- ✓ Prioritized list of the **top 3-5 capabilities** most relevant to your business
- ✓ A clear recommended **next step**: pilot, implementation, or honest no-go rationale

## WHY SUNRISE

Sunrise Technologies is a Microsoft Dynamics 365 partner with deep expertise in project-based business models. With over 450 successful go-lives and customers across the nonprofit and professional services sectors, Sunrise delivers project management modernization at a tremendous value.
