

Microsoft Teams: 1-Wk Implementation

ABOUT TURKCELL:

Turkcell is a converged telecommunication and technology services provider, founded and headquartered in Turkey. It serves its customers with voice, data, TV and value-added consumer and enterprise services on mobile and fixed networks. Mobile communication in Turkey began when Turkcell commenced operations in February 1994. Turkcell's target has been to become an integrated communication and technology services player in the region, operating a converged mobile and fixed network platform and offering a wide range of innovative products and services.

WHAT WE OFFER

If you think your organization is ready to enhance remote collaboration and productivity under one platform, our professional consultants will help you to simplify your transition to Microsoft Teams.

With Microsoft 365 and Teams, you can create a more open, integrated, connected, and secure digital environment that makes your remote work easier. While Microsoft Teams is the best tool to support communication and collaboration across the organization, deploying Microsoft Teams without a custom deployment plan could result in complexity in governance, security, and adoption.

We offer a custom deployment plan based on your business demands and company structure. Our aim is fully cover your organization's and employee's specific needs to deliver most of Office 365 and Microsoft Teams productivity. We can help fast-track the deployment of Microsoft Teams and provide the necessary support services to achieve a successful roll-out.

We aim to capture best practices by creating resources that help your organization to roll out Microsoft Teams successfully.

Deliverables:

- Introduction to Microsoft Teams and Office 365 Productivity
- Microsoft Teams configuration and set up plan
- Microsoft Teams adoption plan & roadmap

Why Microsoft 365?

Save your company money

Microsoft 365 is available as a simple monthly subscription. Avoid large up-front costs for new software while moving the cost of IT from capital to operating expense. And without on-premises servers to run email, websites, and document storage, you can reduce energy costs and save by no longer purchasing new server hardware.

Scale your business quickly and flexibly

Microsoft 365 grows with you on the Microsoft Azure cloud. Adding a new user is as simple as buying an additional license, which allows access to business-critical technology on up to five PCs/Macs and five mobile devices. Microsoft 365 provides many plans to fit the right capability needs and price points for each user in your organization.

Technical support

Your Microsoft 365 subscription comes with 24/7 support from a global network of experts, with one-hour response for critical, service-impacting events.

Financially backed SLA

Get peace of mind knowing your services are available when you need them with a financially backed, 99.9% uptime service-level agreement.

Simplified IT management

Reduce headaches by reducing your IT infrastructure. Content lives safely in globally distributed data centers with continuous backup and disaster recovery abilities.

Microsoft 365 is a cloud-based subscription service that brings together the best tools for the way people work today. By combining best-in-class apps like Excel and Outlook with powerful cloud services like OneDrive and Microsoft Teams, Microsoft 365 lets anyone create and share anywhere on any device.
