Ready to enhance remote collaboration and productivity?

While Microsoft Teams is the best tool to support communication and collaboration across the organization, deploying Teams without a custom plan could result in governance issues, security concerns, and adoption issues for employees.

CHALLENGES

Regardless of company size implementing Microsoft Teams can present its own set of challenges typically in technical issues, and end-user adoption resistance.

IDEAL SOLUTION

Our aim is fully cover your organization's and employee's specific needs to deliver most of Office 365 and Microsoft Teams productivity with a custom deployment plan.

DESIRED OUTCOMES

We can help fast-track the deployment of Microsoft Teams and provide the necessary support services to achieve a successful roll-out.

Microsoft Teams: 1-Wk Implementation

We offer a custom deployment plan based on your business demands and company structure. Our aim is fully cover your needs to deliver most of Office 365 and Microsoft Teams productivity.

1

Tailor made approach with expertise

Our approach for implementing Microsoft Teams leverages our expertise working with enterprise organizations and Microsoft's best practices.

2

Simplify your transition to Microsoft Teams

Every organization has unique challenges. We offer a custom deployment plan based on your business demands and company structure.

3

Get the most of Office 365 productivity

With Microsoft 365 and Teams, you can create a more open, integrated, connected, and secure digital environment that makes your remote work easier.

Turkcell Custom Deployment Plan & Microsoft Teams
