

Planning

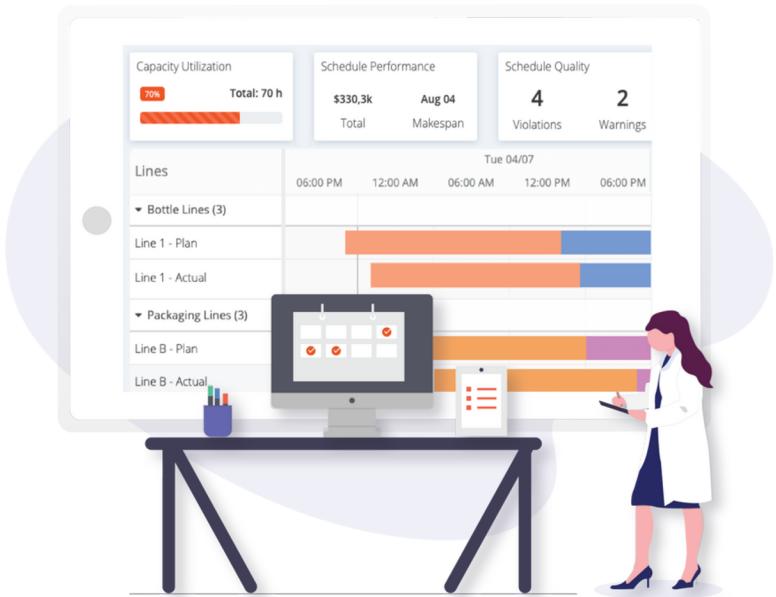

Value Proposition:

- Reduce cycle times & inventory
- Increase agility & speed
- Maximize service levels & OTIF

Digital Factory delivers real-time production monitoring and automated analysis, so teams act fast instead of collecting data. AI streamlines tasks like scheduling, boosting performance at every level and letting everyone focus on what matters most.

Top Use Cases

- Generate Automated Just-in-Time Schedules
- AI-Driven Changeover Minimization
- Assign Optimum Number of Workers to Each Line
- Data-Driven Preventive Maintenance
- Real-Time Reporting

Solution Capabilities

- AI-Driven Automation
- Real-Time Data Utilization
- Easy to Use Digital Interface
