Showcase modern calling capabilities and build a plan to deploy and adopt Microsoft Teams Calling

# MS Teams Calling
# 1 DAY Workshop

Have you thought about using Microsoft Teams' calling functionality but want to know more about it first? Here's everything you need to know. The new features around Calling allow a modern form of collaboration from any device and even on the go.

The Teams Calling Workshop is designed to guide you through the process of streamlining enterprise voice solution with reliable, high-quality, and integrated calling. As implementing calling solutions can be complex, Supremo experts will walk you through 'art of the possible' demonstrations, use-case design, and deep-dive planning that will give you actionable recommendations to deploy and adopt Microsoft Teams Calling with Phone system.

Today's workplace has evolved into a dynamic ecosystem for teamwork. Microsoft Teams brings the tools to connect even mobile workforces into a virtual team across a wide variety of communication channels and UC solutions. The new features around Calling allow for a modern form of collaboration from any device and even on the go. The combination of different tools and solutions in one interface allows a faster and more efficient new way of working. We are pleased to offer a Calling workshop that will show you how to do more with Microsoft Teams and accelerate your digital transformation.

## Workshop agenda:

◆ Teams Calling overview

◆ Evolution of Voice - Demonstrations of the end-to-end Teams Calling experience to showcase the viability of Microsoft Teams as your telephony solution

◆ Evolution of Voice Management Demonstrations - Direction about how to transition various user profiles into a modern collaboration and communication environment

◆ PBX to Teams Journey - Discussion of deployment scenarios

◆ Live DEMO
