

Viva Connections:
4-Wk full
implementation

powered by coegi

coegi[®]

Viva Connections within 4-Wks

A complete installation of Viva Connections that results in a fully working solution for your organisation within 4 weeks at a fixed price.

Viva Connections implementation includes the following:

-  Workshop
-  Implementing
-  Functional testing
-  Education
-  Go Live

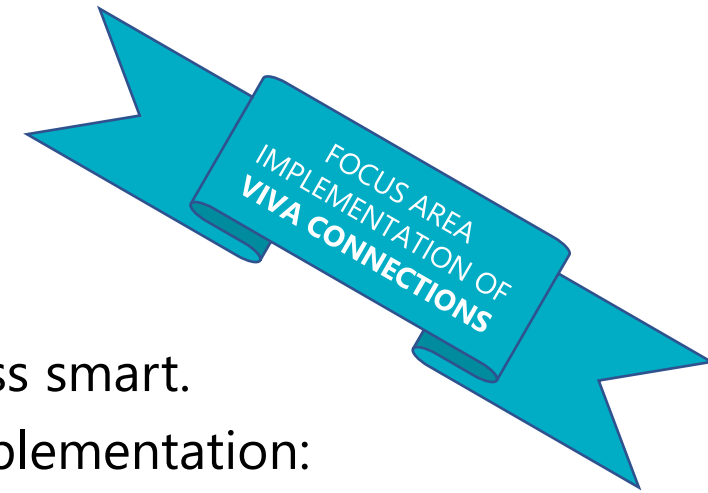

Dashboards

This is the biggest change as new functionality is introduced, a dashboard filled with different adaptive cards. The dashboard is controlled centrally and, just like with web parts, you will have a number of ready-made cards to add included in our implementation:

- Approvals
- Assigned Tasks
- Shifts
- Link to SharePoint page
- Link to document or external web page
- Open the Teams app
- And many more!

The image shows a SharePoint dashboard interface. At the top, there is a search bar and navigation links like Home, Who we are, What's Happening, Find It, News, Dashboard, and Edit. A blue banner in the top right corner reads "FOCUS AREA OF IMPLEMENTATION OF VIVA CONNECTIONS". The dashboard features several adaptive cards: a team photo with the text "Meet the team behind the design: How partnerships build inclusive ideas and innovation at Relecloud"; a weather card for Redmond, WA showing 36°F; a wellbeing card with a "Health Check" section; a "Wellbeing: carve out breaks in Outlook" card; a "Watch the leadership keynote" card; and an "Expenses" card showing a balance of \$167.52. A red box highlights a "Dashboard" section on the right, which contains a "Wellbeing" card with 5 days remaining, a "Holidays" card for Nov 25, and an "Expenses" card. The Coegi logo is visible in the bottom right corner.

Dashboards – Your own cards!

But you can of course develop your own cards that can be more or less smart.

Examples of cards that we help our clients with during our 4-week implementation:

- View remaining vacation days from your HR system (or your other line-of-business apps)
- Check-in at workplace
- Today's lunch menu

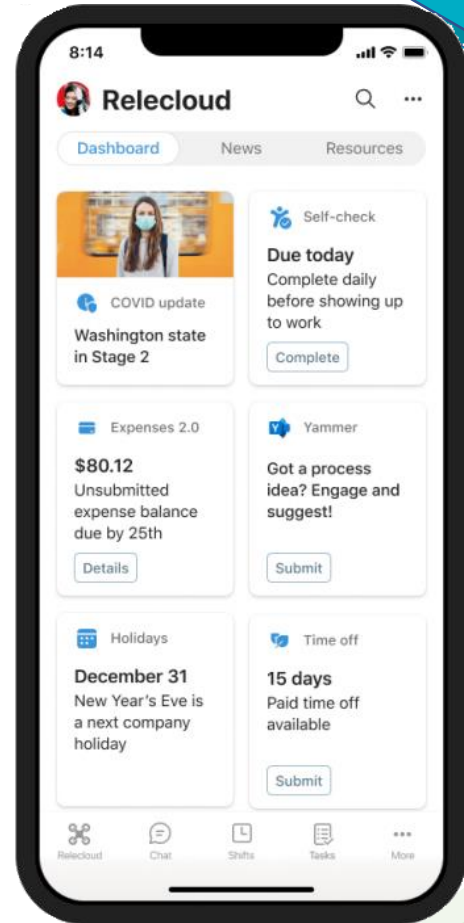

It's really only the imagination that sets the limits, but it's a great way to give your mobile users a nice and smart interface right in the Teams app. During our Workshop we'll discuss and decide what of the out of the box cards and own cards that we should focus on during the implementation!

All cards in the dashboard will be target group controlled and you will also be able to display it directly on the start page of the intranet in the browser through a new dashboard web part.

Dashboards

The dashboards can be viewed in multiple languages, making sure that your organization gets a modern employee experience designed to keep everyone engaged and informed.

Your organizations languages will be discussed in our workshop so that your Education and your Go Live date will be just as you want it!

Our 4-week implementation process

If your organization is looking for a modern employee experience designed to keep everyone engaged and informed, Viva Connections and our 4-week fixed price implementation is just what you are looking for!

Let us pick your ideas and with our certified and experienced staff. In our standardized process we will turn these into a personalized destination to discover relevant news, conversations, and the tools your employees need to succeed!

Every step below included in our fixed price consultancy service, all taylorred to have you up and running within 4 weeks.
