

Azure Well-Architected Review

Establish an optimized, secure and efficient Azure posture with this Well-Architected Review.

As businesses continue to adopt Azure, workload implementations can age and deviate from optimal or newly recommended configurations. This applies to both individual workloads and the broader platform, including emerging architectural and compliance standards. The continuous evolution of the Azure product portfolio and general availability of new products, along with sector-specific architectural standards, further compounds concerns for IT leaders.

BDO Digital has the technical and sector-specific experience to conduct Azure Well-Architected Reviews, ensuring success as your Azure environment continues to grow and mature. These reviews provide you with the insights needed to confidently optimize your Azure estate now and into the future. BDO Digital is a certified Azure Expert Managed Service Provider and is ready to engage with you throughout your digital transformation journey.

AZURE WELL-ARCHITECTED REVIEW BUSINESS CASES

BDO Digital's diversity of expertise enables organizations all around the world to gain valuable insights into their technology solutions and Azure implementations. BDO's architects will help you review your workloads and implementations through the lenses of cost management, security, performance, reliability, and operations.

Examples of how your business could leverage BDO's Well-Architected Reviews include:

- ▶ Review workloads and implementations powered by PaaS technologies like Web Applications and Azure VMWare Solution so they are ready to scale
- ▶ Ensure infrastructure services like networking, multi-factor authentication, backup, and business continuity are setup according to recommended practices
- ▶ Examine data services like Fabric and Azure SQL for reliability, performance, and geo-redundancy
- ▶ Assess Azure Virtual Desktop pools for performance and cost efficiency
- ▶ Review your organization's Azure consumption and get recommendations for cost savings
- ▶ Assess Power Platform workflows for user experience and cost efficiency

Work with BDO's certified solution architects to review costs, resource configuration, workload architecture, and much more.

STEPS FOR A SUCCESSFUL AZURE WELL-ARCHITECTED REVIEW

BDO Digital works with forward-focused organizations to modernize infrastructure, manage cloud costs more effectively, and support growth into new markets. With a strong track record in complex, regulated environments and long-term transformation efforts, we bring a strategic and practical approach to every phase of the cloud journey.

- 1 Plan & Scope:** Review business goals, identify workload targets, determine the relevant subject matter experts, and gather data from stakeholders
- 2 Assess:** Use Microsoft tooling results to review findings thoroughly and provide practical recommendations that align with business goals
- 3 Rationalize:** Solution Architect driven alignment of business requirements with Well-Architected Review results
- 4 Report:** Present a detailed report of the assessment results along with a prioritized list of recommendations

Once the Azure Well-Architected Review is complete, BDO Digital can work with your organization to develop a plan to action the recommendations proposed, in a separate engagement.

WELL-ARCHITECTED REVIEW KEY DELIVERABLES

- ▶ All data gathered by BDO's delivery teams
- ▶ A comprehensive list of recommendations for in-scope reviews
- ▶ A statement of work for executing recommended remediations

WHY CHOOSE BDO DIGITAL

Get it Right from the Start

BDO Digital's methodology is built on years of experience helping our clients get the very best from their Azure investments. BDO Digital consistently delivers results for organizations around the world.

Broad Capabilities

Our Azure, Cybersecurity, App Modernization, and Data and AI engineers work together seamlessly, no matter where you are in your technology transformation journey. BDO Digital's comprehensive teams cover your application migration, transformation, and optimization from end to end.

Accelerate Your Success

We help you move quickly, reduce operational costs and risks, enable innovation, and provide IT capacity at your fingertips in a very short timeframe, depending on your size and complexity. We will continue to work with you to transform and modernize your technology platform and business, positioning you for a competitive future.

BDO Digital is trusted by leading organizations because we help modernize infrastructure, optimize costs, and unlock new market opportunities. Our approach helps organizations achieve greater value by aligning budget considerations, security, performance, and operational efficiency.

***Pricing will vary based on the scope of the engagement**

Note: Remediation execution is out of scope for this Review
