

Azure Cloud Advisory

Drive your cloud strategy to focus on better business outcomes.

HOW IT WORKS:

Getting the best out of cloud and maximizing your ROI, requires a clear strategy. Our approach aligns your goals and prioritizes the solutions which will deliver the optimum outcomes.

Our team will propose a solution design of Microsoft Azure Cloud components such as Compute, Storage, Database, Security & Authentication, Monitoring & management services, Azure Networking, Web & Mobile.

TIMELINE:

STEP 1: Facilitate user discovery session focused on cloud vision and identifying gaps and opportunities

STEP 2: Scan environment, create an inventory of current state and scope immediate priorities

STEP 3: Evaluate and map specific cost savings over time, including how to maximize your investments and leverage existing tools more efficiently

STEP 4: Present findings to team, along with proposed initiatives and actionable first steps

Cloud Strategy Results:

- ▶ Cloud drivers & strategic objectives
- ▶ Cloud readiness evaluation
- ▶ Conceptual architecture
- ▶ Multi-year roadmap
- ▶ Application migration strategy
- ▶ Governance structure
- ▶ Constraints, risks, dependencies
