

# DATA SUBJECT RIGHTS FULFILLMENT AUTOMATION

## QUICKLY IDENTIFY PERSONAL DATA & AUTOMATE DATA SUBJECT RIGHTS REQUESTS

### HOW IT WORKS

BDO Digital's team can help you understand the technology and processes for managing the volume & complexity of DSR requests. BDO's Privacy SMEs provide operational support throughout the process.

This support is provided by delivering recommendations designed to help reduce risk and help improve privacy maturity. By the end of this project, BDO Digital's team will help enable enhanced operational activities and efficient, effective privacy decisions.

### RESULTS

- ▶ Help reduce average time to complete DSR fulfillment, freeing your team to focus on higher-value activities
- ▶ Designed to enhance operational activities and allow your team to make seamless privacy decisions
- ▶ Help improve quality and can reduce redundancy within team
- ▶ Potential for vendor consolidation and cost reduction

### TIMELINE

**STEP 1 - Align on Current State:** Understand current technology and processes for managing the volume and complexity of DSR requests.

**STEP 2 - Deploy Microsoft Priva:** Purchase licensing, deploy Microsoft Priva, and integrate with any existing third-party privacy solutions.

**STEP 3 - Operational Support:** BDO Privacy SMEs provide over-the-shoulder operational support and additional reach-back support.

**STEP 4 - Deliver Recommendations:** Deliver runbook and recommendations for reducing risk and increasing privacy maturity.
