

Data Subject Rights Fulfillment Automation

Quickly Identify Personal Data and Automate Subject Requests

BDO Digital has developed a way for organizations to identify which processes can be automated to show immediate business results.

Align on Current State

Understand current technology and processes for managing the volume and complexity of DSR requests

STEP 1

Deploy Microsoft Priva

Purchase licensing, deploy Microsoft Priva, and integrate with any existing third-party privacy solutions

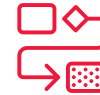

STEP 2

Operational Support

BDO Privacy SMEs provide over-the-shoulder operational support and additional reach-back support

STEP 3

Deliver Recommendations

Deliver runbook and recommendations for reducing risk and increasing privacy maturity

STEP 4

RESULTS

- ▶ Reduce average time to complete DSR fulfillment, freeing your team to focus on higher-value activities
- ▶ Enhance operational activities and allow your team to more easily make privacy decisions
- ▶ Increase quality and reduce redundancy within team - creating cleaner information for review leading to faster decision making and quicker turnaround time
- ▶ Potential for vendor consolidation and cost reduction
