

# InsurHub Analytics Accelerator

InsurHub helps insurers harness the power of their data with industry tuned analytics, dashboards, and machine learning models

## INSURHUB OVERVIEW

Built exclusively on the Microsoft Azure platform, InsurHub Analytics is a cloud-based solution that allows insurers to leverage their core customer, finance, actuarial, policy, claims, and relevant external datasets to capitalize on the potential of data and shift the lens from hindsight to foresight leveraging pre-built predictive analytics models. InsurHub Analytics helps insurers accelerate common pressing business priorities such as market growth, customer engagement, product innovation, business optimization, and predictive risk management.

## 4-6 WEEK ACCELERATOR OVERVIEW

Our experienced data advisory team will assess your environment, establish areas of focus and design a roadmap based on your pressing priorities that include a secure data foundation, data management best practices, an industry specific reference data model, pre-built analytical models, and a library of data visualizations providing insights to the business. In 4-6 weeks, you will understand your current state and establish a plan to accelerate your adoption of InsurHub Analytics such that you are able to realize the most from your data.

## INSURHUB BUSINESS CASES
