Microsoft 365 Copilot Accelerator

BDO Copilot Care+

Leverage Microsoft 365 Copilot to take productivity to new heights.

12 Week Implementation

BDO DIGITAL

THE NEXT PHASE OF DIGITAL TRANSFORMATION

In the age of AI, every app should be intelligent.

Meet Copilot, a Microsoft powered AI tool that focuses on amplifying your organization's creativity and accelerating productivity which takes the grunt work off your plate. With Copilot, you can empower everyone to achieve more. Harness the power of Copilot to automate any mundane tasks, streamline processes (including document processing, workflow management), and deliver a differentiated customer experience with generative and intelligent Copilot Apps to make your workplace more intelligent. Copilot is not just a tool, it's the catalyst for your AI-driven digital transformation, unlocking the limitless possibilities hidden within your data.

Generative and Intelligent

Automated and Integrated

Digitized and Modernized

BDO'S COPILOT CARE+ FRAMEWORK

Transcend

- **Support:** Establish a program of continuous improvements to maximize productivity and return on investment.

- **Innovate:** Push the boundaries of AI by implementing advanced use case scenarios and integrations.

Adopt

- **Adopt**: Ensure employees are trained and supported to make the most out of Microsoft 365 Copilot, including Copilot use cases and "prompt" best practices.

- **Change Management**: Establish a Copilot Centre of Excellence and a community of Copilot "Champions" to share knowledge and accelerate adoption.

Deploy

- **Enable:** Acquire and deploy Microsoft 365 Copilot licenses for prioritized groups and employees.

- **Communicate:** Establish a communication framework and execute the communication plan to begin onboarding employees onto Microsoft 365 Copilot.

Get Ready

- **Technical Assessment:** Focus on Copilot opportunities, cloud readiness, & security.

- **Readiness Planning:** Align stakeholders on a prioritized roadmap for rolling out Copilot to a pilot group or the entire organization.
