Secure Productivity with Microsoft 365 Proof of Value & Implementation Overview

BDO's Secure Productivity with Microsoft 365 Proof of Value and Implementation will employ a structured approach to help your organization **maximize Microsoft 365 investments and get expert support** as you adopt new features.

Estimated project timeline:

We estimate a typical Proof of Value to take up to 6 weeks. A full production activation typically takes an additional 6 weeks.

Typical implementation includes:

- ▶ Technology Analysis and Advisory Documentation
- ▶ License Configuration and Deployment
- ▶ Technology Feature Configuration
- ▶ Roadmap for Deeper Integration

PHASE 1 Consultation

In-depth consultation to understand your collaboration and modern workplace security needs

PHASE 2 Technology & License Assessment

We review your existing modern workplace solutions and work with you to define a solution activation strategy

PHASE 3 Feature Pilot & Testing

We carefully pilot the solutions and prove value to a limited audience for real-world testing

PHASE 4 Full Activation & Support

BDO will work with you to activate the features at scale while also supporting your organization through the adoption journey

Helping a Large Healthcare Nonprofit

SECURE PRODUCTIVITY FOR M365 COPILOT

Industry:

- ▶ Healthcare

Brief Company Description:

- ▶ Authoritative scientific nonprofit organization that sets standards for the identity, strength, quality, and purity of medicines, food ingredients, and dietary supplements

Area of Focus:

- ▶ Improving excessive access and oversharing while implementing **Secure Productivity**, including **Data Security**

BUSINESS CHALLENGE

- ▶ While exploring productivity gains from M365 and M365 Copilot, BDO discovered that that significant sensitive data was overshared and surfaced to unauthorized users
- ▶ Internal application and infrastructure teams were unable to identify existing access and properly govern future access

SOLUTION

- ▶ BDO was engaged to inventory and remediate excessive access in SharePoint Online, Teams and OneDrive
- ▶ Through automation and Microsoft cloud-native tooling, BDO was able to completely inventory and protect sensitive data across M365 services

RESULTS

- ▶ M365 & M365 Copilot seamlessly adopted the new protections and no longer surfaced sensitive information to unauthorized readers
- ▶ Client has command over risks of oversharing, governance for centralizing access policies, and a roadmap for future remediations of lower priority risks across their collaboration environment

‘BDO’, ‘we’, ‘us’, and ‘our’ refer to one or more of BDO International Limited, its network of independent member firms (‘the BDO network’), and their related entities.

The BDO network is an international network of independent public accounting, tax and advisory firms which are members of BDO International Limited and perform professional services under the name and style of BDO (hereafter: ‘BDO Member Firms’). BDO International Limited is a UK company limited by guarantee. It is the governing entity of the BDO network.

Service provision within the BDO network is coordinated by Brussels Worldwide Services BV, a limited liability company incorporated in Belgium. Each of BDO International Limited, Brussels Worldwide Services BV and the BDO Member Firms is a separate legal entity and has no liability for another entity’s acts or omissions. Nothing in the arrangements or rules of the BDO network shall constitute or imply an agency relationship or a partnership between BDO International Limited, Brussels Worldwide Services BV and/or the BDO Member Firms. Neither BDO International Limited nor any other central entities of the BDO network provide services to clients.

BDO is the brand name for the BDO network and for each of the BDO Member Firms.
