Intelligent Recap

Focus on what matters most with meetings powered by AI, including GPT from OpenAI

80%
of people are comfortable with AI summarizing their meetings and action items[1]

Save time and effort with intelligent meeting recap

Use AI-generated meeting notes and tasks for key points and action items

Quickly discover important moments in the meeting, such as when your name was mentioned, a screen was shared, and when you've joined or left—only visible to you

Speaker timeline markers allow you to jump to different speakers—organized by those you work most closely with

Chapters and topics divide the meeting into sections so it's easy to jump right to where you would like to review
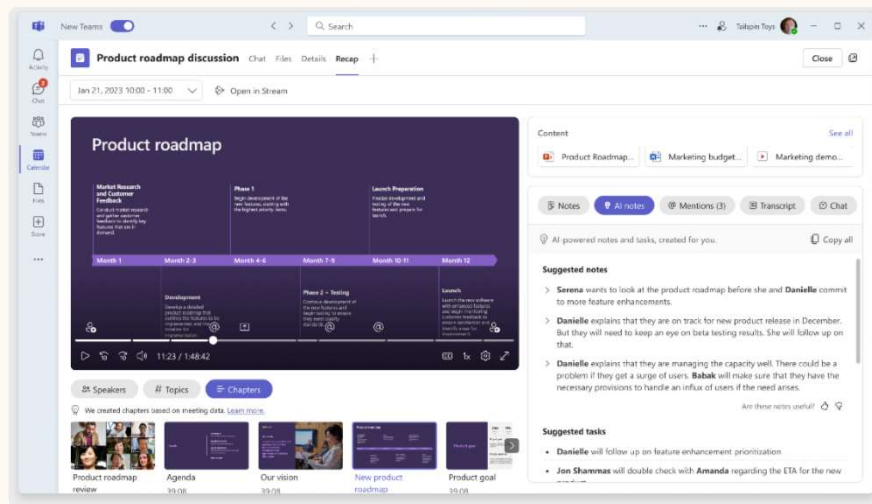

Break down language barriers

AI-powered live translation of meeting captions and transcripts into over 30 languages empower all participants to engage in the discussion and get the most out of the meeting
