Microsoft Power Platform

Model Driven Power App in a Day Training

Do you want to digitize or rebuild existing business processes? Would you like to get started in an uncomplicated way and without any developer effort? Then you are in good hands with us as part of your training. With the help of the model-driven Power Apps, you can build and develop extensive business applications and ensure a professional data structure within your company. Microsoft Power Apps is built on a low-code platform for building business applications. With this type of app development, you don't need to write any code, but you can build and extend the app through the use of visual and model-based methods. This can not only simplify the digital transformation in your company, but also accelerate it. Rather than relying largely on coding, low-code platforms simplify application development with techniques such as drag-and-drop and pictorial work instructions.

Online Event: 2 x ½ Day

- Teaching Model Driven App Basics #dataverse #environments #administration #security
- Create a professional Model Driven Power App based on a case study with Modules like
    - Solutions (Import, Export)
    - Tables (Entities)
    - Rows (Data Fields)
    - Forms & Views
    - Charts & Dashboards
- Additional to the Training Materials we provide the Video Recording of the Training

Requirements for Attendees

Stable Internet Connection, Basic Know-how about the Microsoft Eco-System, Excel Know-how (Understanding Tables and Fields and their Entity Relationship to each other).

Expectation

We combine theoretical and practical approaches and go through the entire creation and adaptation process together. We will show you the basic components and how you can create and customize a model-driven app (without coding knowledge). Various exercises will help you to deepen your new knowledge. We'll give you our best practices along the way

Pricing

Each Attendee pays a Fee of 3.200 EUR for the Training that will be provided in 2 x ½ Days for a better Learning Experience.

Miscellaneous

If you want to book a Training with more than 1 person online or on site in 53229 Bonn please contact us for a special offer.
