## Co-management and Autopilot : Modernization of the user environment

**BANKING  
SECTOR**

### Context :

- A security audit around the user environment recommends the modernization of the Workstation.
- At the same time, the end of Windows 7 support expired in January 2020.

### Project Objectives :

- Conduct workshops around Windows 10 integration
- Guide our client on the technological possibilities related to the Windows 10 ecosystem
- Accompany our client on the implementation of AutoPilot and Intune tools
- Monitor pre-pilots and pilots on a representative sample

### Our strengths :

- A personalized partnership relationship.
- Extensive support: from the technical architecture to detail resolution with Microsoft
- A multidisciplinary team (Cloud & Modern Workplace Architects and engineers)

### Key steps :

1

**Audit and  
workshops**

2

**Implementation  
and validation**

3

**Initial  
deployment**
