

Logic Apps Assessment

Envision an Agile IT, able to integrate systems efficiently and with a very quick turn-around. Able to onboard new systems and trading partners quickly, efficiently and cost effectively.

Every new day sees us producing more data than ever before. The effective utilization of data is what differentiates modern companies from the competition. Having data flow securely and timeously between systems, apps and trading partners, both locally and in the cloud, is key to enabling our digital world.

Logic Apps Assessment

We have a proven track record of success in helping our customers implement enterprise scale Logic Apps centric solutions.

In 2015, Synegrate was one of the first Microsoft Gold Partners to implement Logic Apps, at scale, at a outdoors clothing retailer called Patagonia.

Let our experience in architecting and implementing Logic Apps since its initial release in 2015, be of great value to your organization by contacting us to do a Logic Apps assessment at your organization.
