

Guides on HoloKase
End-to-end support

**Introduction to
Dynamics365 Guides**

DYNAMICS 365

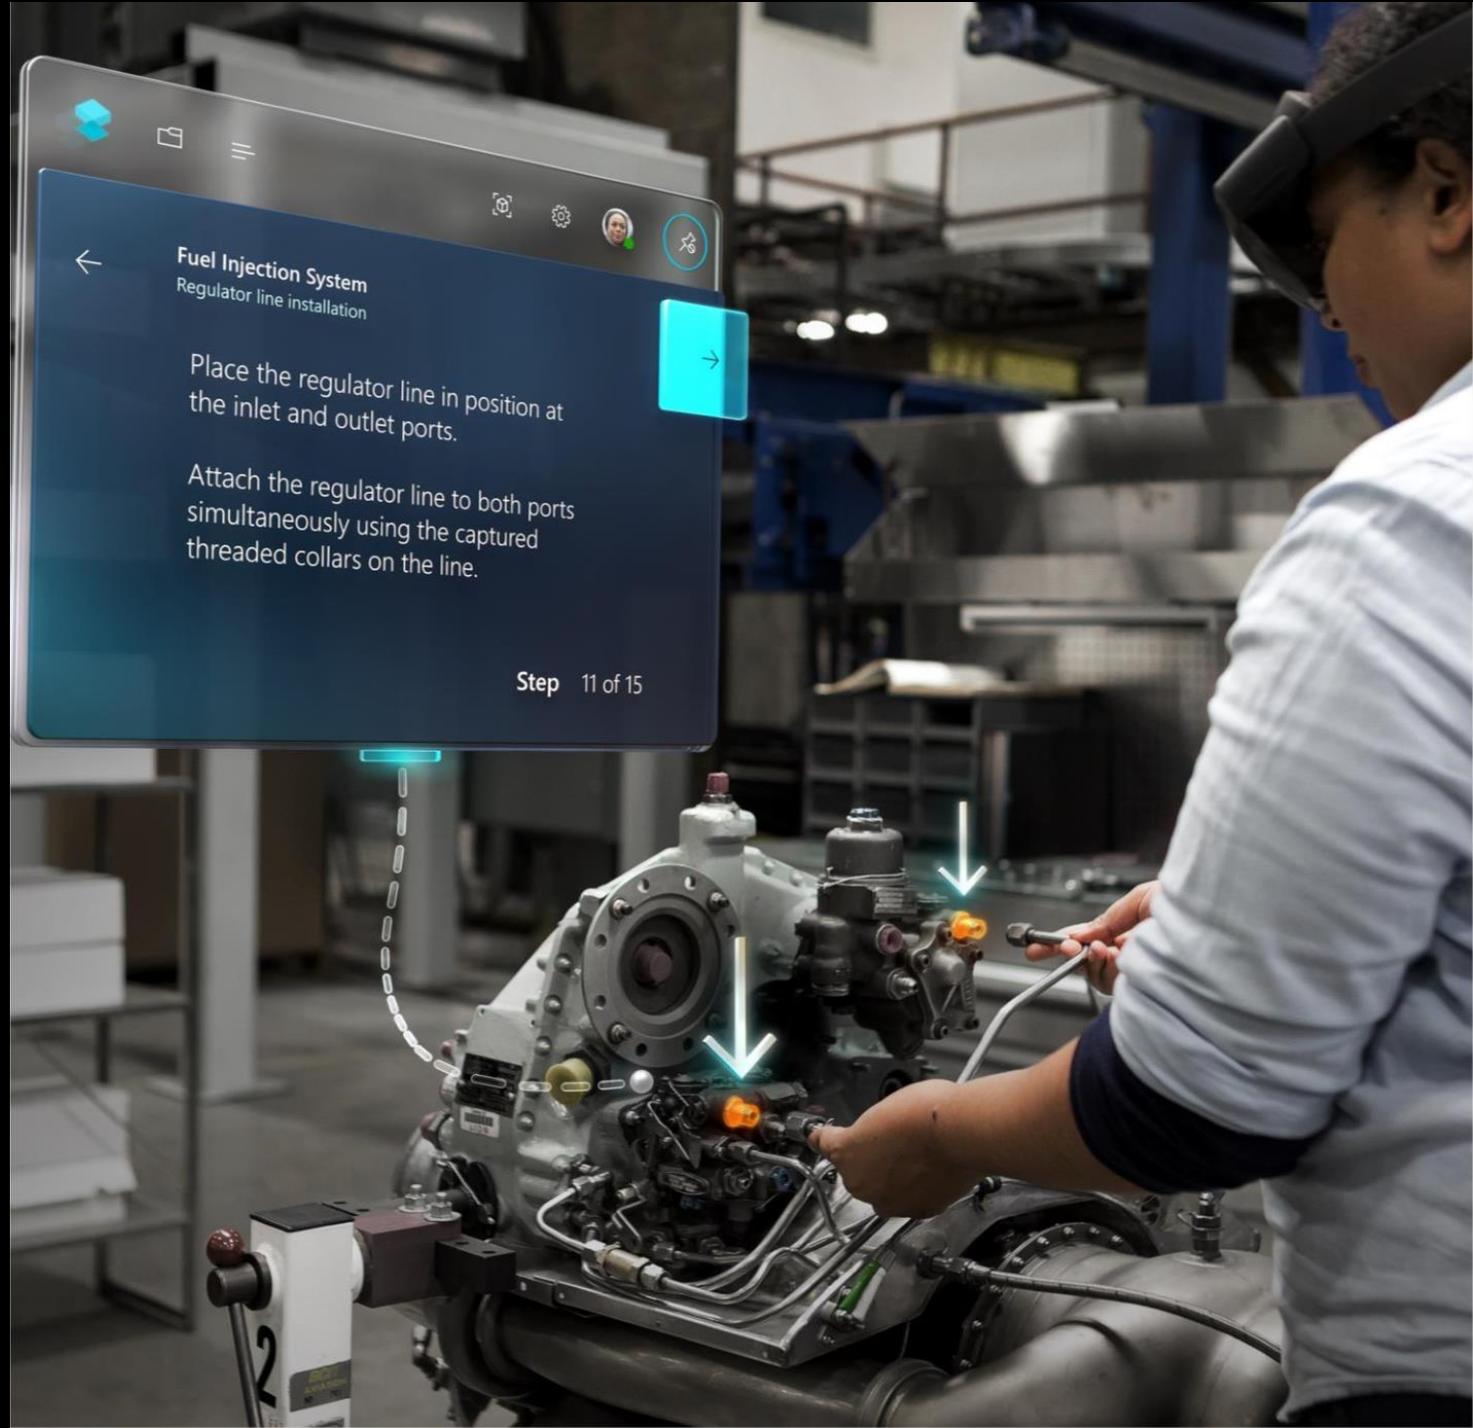

Guides

Microsoft Dynamics 365 Guides is a HoloLens App allowing you to create and visualize your mixed reality instruction guides.

Guides allow you to optimize the production training and support of your team by contextualizing the information.

[Discover the solution with a video](#)

DYNAMICS 365
Guides

The main use cases of the solution are:

- Training and Learning
- Production support
- Continuous improvement

The benefits.

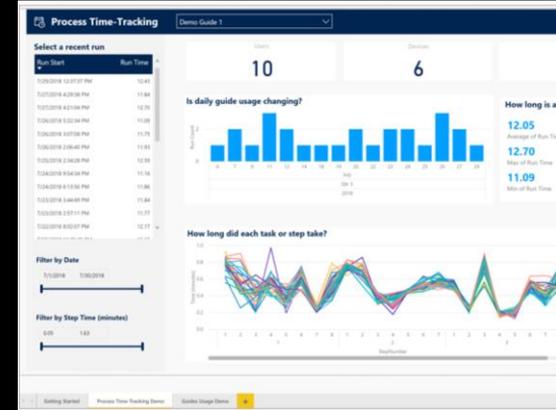

Fast implementation

Creation and visualization of content from a unique and easy-to-use App

Conditioning

Anchoring with reality, information contextualization

Process analysis

Tracking, optimization and process improvements thanks to usage data

The benefits.

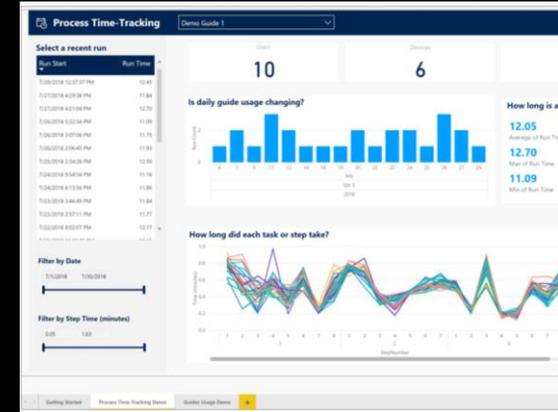

Fast training

Rapid skills acquisition,
autonomy

Simplified skills transfer

Explain once,
share indefinitely

Minimized risk of errors

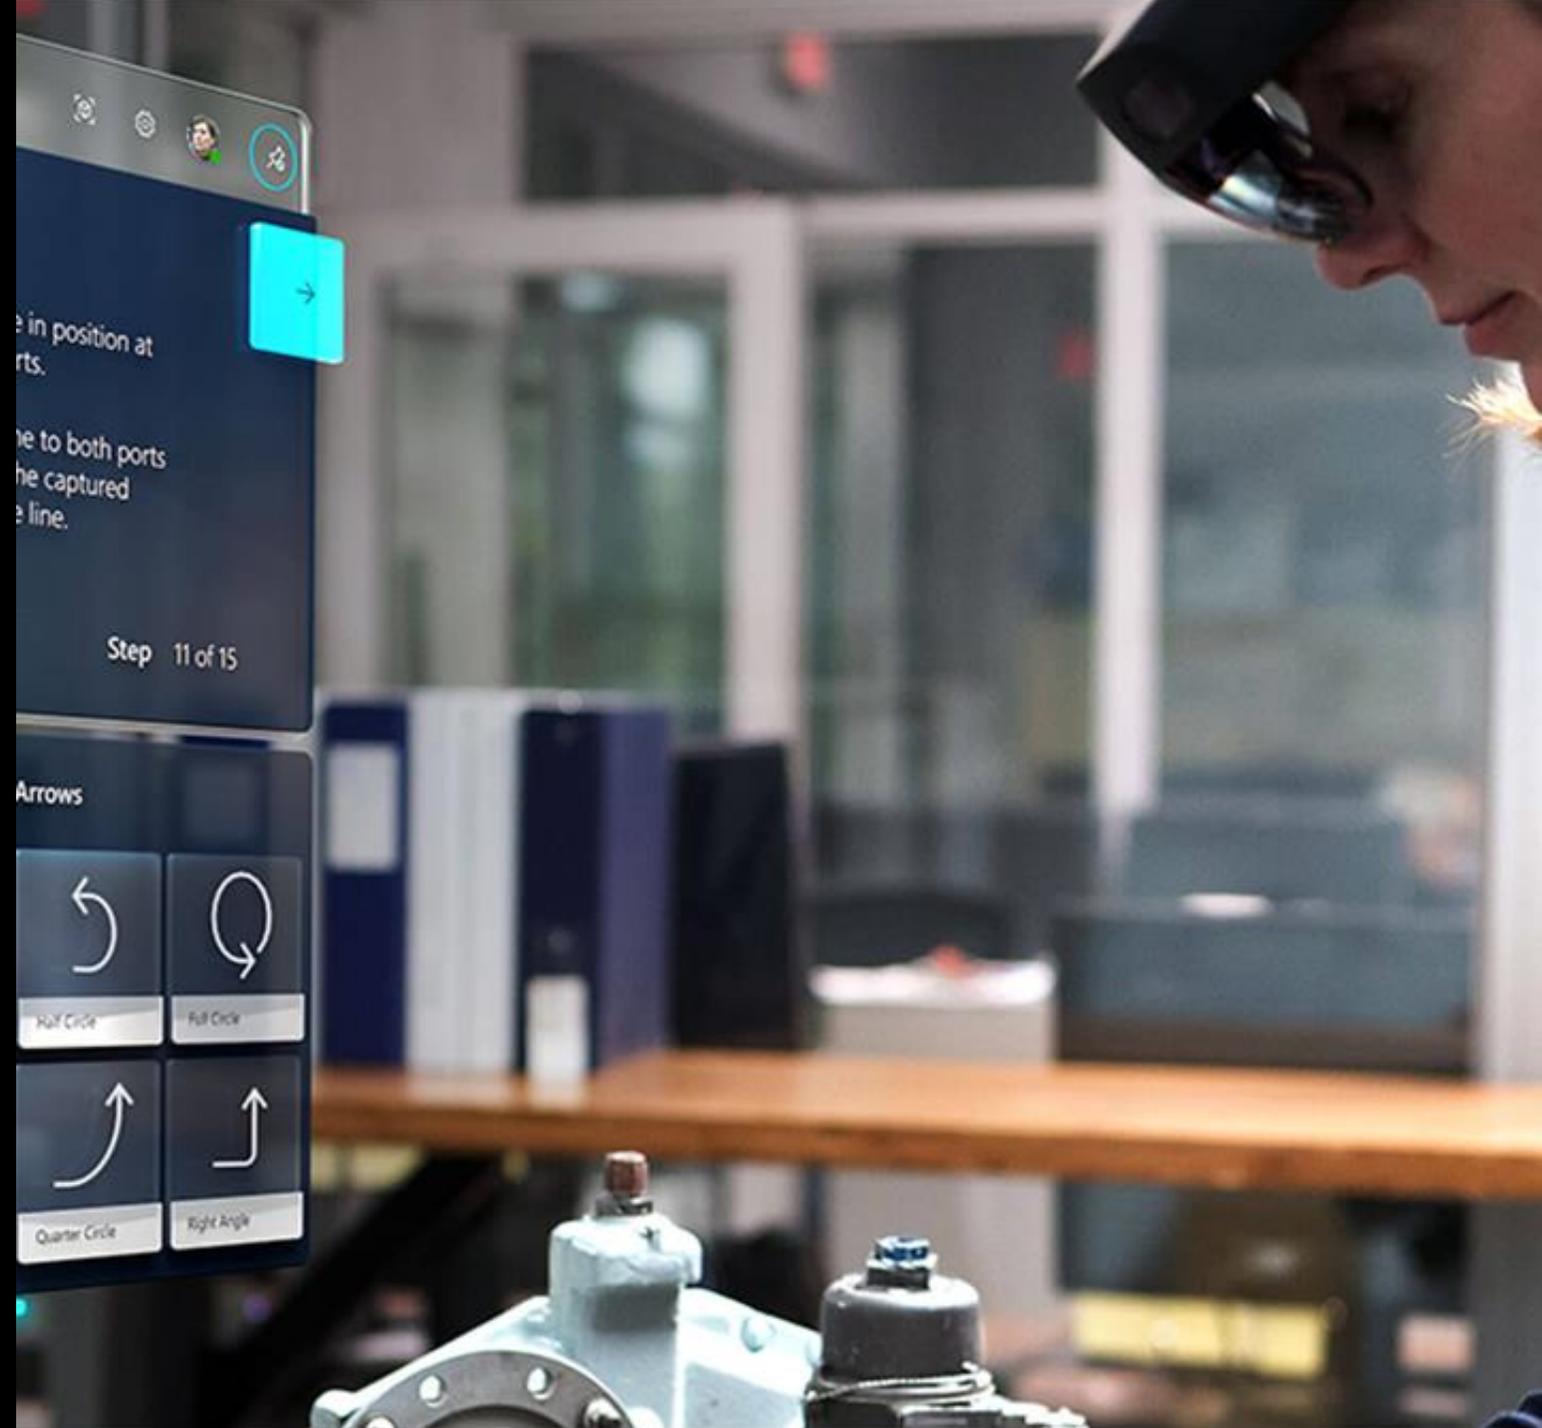

Guide step by step and
contextualize with
holographic indicators

DYNAMICS 365
Guides

The key factors of a successful deployment:

- Validated Microsoft prerequisite
- Hardware adapted to the usage
- User accounts created
- App installed and configured
- Users trained and autonomous

Various hardware solutions

Introducing

HOLOKASE
by
synergiz

Collaborate everywhere
with your HoloLens 2

Use your HoloLens 2 everywhere.

Collaborate Everywhere

With the Wifi/4G router included no need for an Internet Connection to collaborate using your HoloLens 2

All-in-one Solution

HoloLens2, Router, Surface tablet and Power Bank are all packed-up in a complete solution case enabling full deployment of Mixed Reality experiences

Transport and Store easily

The optimized size, handle and wheels (*for Medium only*) make it easy to carry your device everywhere while the foam protects your devices even during transportation

HoloKase
featuring **HoloLens2**

HOLOKASE

Small One TR

1

Medium Two TR

2

Customizable
(Size & Content)

3

1

HoloKase Small One - TR

- 1 HoloLens V2
- 1 Tablet Surface Pro
- 1 Wi-Fi / 4G Router
- 1 Power Bank

2

HoloKase Medium Two - TR

3

HoloKase Customizable

Example of customization:

- 1 HoloLens V2
- 1 Tablet Surface Pro
- 1 Wi-Fi / 4G Router
- 1 Power Bank
- 1 Storage Space (5L)

HoloKase
featuring **XR10**

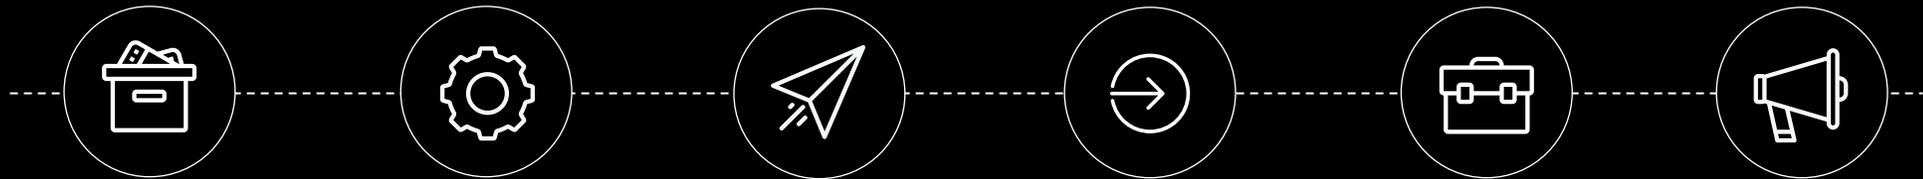

HoloKase XR10

- 1 Trimble XR10
- 1 Tablet Surface Pro 7
- 1 Wi-Fi / 4G Router
- 1 Power Bank

A proven methodology

Methodology.

LAUNCH

Coordination with your teams

Information gathering to configure the solution

DESIGN

Requirements analysis in terms of 3D models and animation

Design and validation of your storyboard

PRODUCTION

Design of 3D models and animation

Design of the guide on your environment

DEPLOYMENT

Positioning of the holograms on your tool

Training on the App on HoloLens for the pilot users

TRAINING & SUPPORT

Skills transfer for the operational continuity of the guide

Technical support during all the project stages

REPORT

Project report and recommendation

Analysis of eventual new requirements on HoloLens
