

We help you. We teach you.
We support you

In six working days Synergy Technology provides an extensive support service so that you can get started as quickly as possible with Dynamics 365 Business Central, without the need of extensive and expensive project costs.

This valuable onsite service is designed to get you up and running with Dynamics 365 Business Central.

Synergy Technology will support you from configuration and implementation through to operation and usage ensuring your internal systems and team are up and running using Dynamics 365 Business Central.

Get started with Dynamics 365 Business Central in Six Days

Our professional service is delivered by technical consultant fully trained in Dynamics 365 Business Central and is a popular choice for SMEs with limited internal IT resources.

Day 1 – Overview

- We get to understand the business.
- To get started, we check your existing data and we guide you through where this data needs to go and in what format.

Days 2 and 3 – Configuration and System set up

- We will assist you to ensure a smooth flow of the data import, trouble-shooting along the way.

Days 4 and 5 – On site User Training

- Over two days we provide comprehensive on-site hands on training.

Day 6 – Go Live

- We help you go live.
- When you are ready to go live with Dynamics 365 Business Central we provide on-site support to ensure your system runs efficiently and to identify any issues and answer your trouble shooting questions.

“A valuable resource that gets you up and running with Dynamics 365 Business Central without the hassle of project costs and expensive internal IT resources.”

Michael Gibbs, Consultant Synergy Technology.
