# Next Generation Windows and Endpoint

Raising Workforce Productivity and Security

SYNERGY ADVISORS

The hybrid work paradox

As we shift into a new world of work -- hybrid work -- organizations need to adopt digital solutions to keep their people connected and collaborating, whether they are working from home, at the office, or anywhere in between.

73%
of workers say they want flexible remote work options

67%
of employees want more in-person collaboration

80%
of managers expect more flexible work from home policies

Challenges of endpoint management with the new hybrid workforce

Distributed workers	Endpoint diversity	Employee satisfaction	Cybersecurity
Remote and hybrid work environments	**Multiple devices and app platforms**	**Easy, fast access to organizational resources**	**Mitigating risk and vulnerabilities**
49 million	48 percent	44 percent	65 percent
remote workers report it takes days—and even weeks—to get issues fixed.	of IT leaders say ensuring data security is their top challenge to support end-user productivity.	of remote workers say they have access, but not to everything they need.	of enterprises need to ensure security and compliance across multiple device types.

Next-generation solutions to increase productivity and security

Synergy Advisors > Hybrid Work and NGW/NGE

Solutions for hybrid workforce

Cloud PC – Windows 365

Microsoft Cloud Solutions

Cloud VDI – Azure Virtual Desktop

Windows 11

Windows 11 Enterprise

Unified Management with Microsoft Endpoint Manager

Intelligent Security

Risk-based Control

Unified Management

Zero Touch Provisioning

Advanced Analytics

Deep Microsoft 365 Integration

Microsoft 365

Synergy Advisors Next-Gen Windows/Endpoints integrations help customers land the value proposition of Microsoft's cloud solutions for end user computing.

These offerings can be scoped based on the customer's maturity and business needs, from **assessments, workshops, proof of concepts, pilots** in productive environments, **deployments, onboarding, massification, and migrations**.

Synergy Advisors end-to-end coverage

DEVICES	IDENTITIES	DATA	NETWORK	APPS
• Deploy secure productivity scenarios with Windows 365, Windows 11, and Azure Virtual Desktop • Manage and secure devices with MEM • Defender workloads to protect the device	• Deploy Passwordless scenarios with 'Windows Hello for Business' • Deploy MFA and conditional access • Design sessions for Microsoft Entra	• Discover and act on sensitive information in use, at rest, and in motion • Deploy encryption controls to protect the most sensitive data	• Design secure network infrastructure build on Azure • Integration with Defender for Cloud and Sentinel	• Implement secure remote work scenarios • Deploy MDCA to protect cloud apps • Okta compete and retire AD FS

What can Synergy Advisors help you achieve with Next-Gen Windows?

Security posture

Improve regulatory compliance and IP protection via data centralization and a reduced threat surface with Microsoft Defender and proprietary solutions.

High-capacity computing for hybrid environments

Cloud-scale compute and storage to support specialized workloads like design and development

BYOPC programs

Enable secure Cloud PCs, even on personal devices.

Disaster recovery

Help ensure continuity and access for your workforce and company data even in the most challenging circumstances.

Temporary workforces

Simplify and accelerate the onboarding and offboarding process for elastic workforces.

Mergers and acquisitions

Provide seamless transitions and access for growing businesses.

Take your experience to the next level with Synergy Advisors' E-Suite

E-Suite

E-Suite is a bundle of 7 different products that seamlessly intertwine with each other and with Microsoft 365. They help extend the features and functionality of different Microsoft 365 services to solve advanced use cases.

• End-to-end analytics
• Investigation of users and resources
• Alerts, notifications, and response
• Modern work and cybersecurity
• Security incident management
• Data protection and governance
• Migration from Zoom to Teams
• Seamless experience inside Microsoft Teams
• PLUS! PowerBI advanced reporting
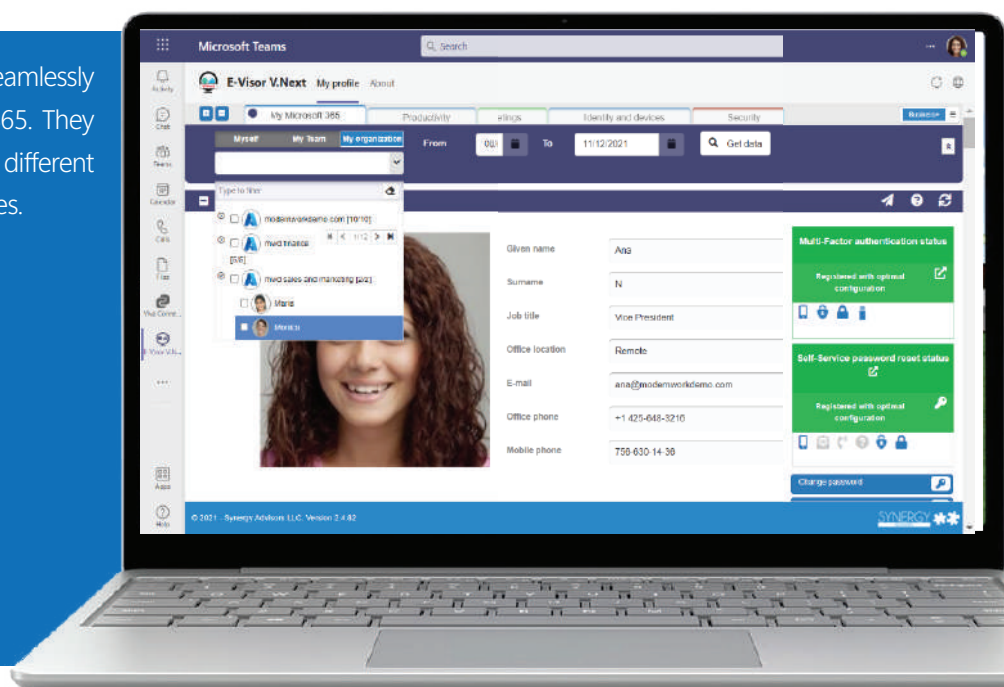

Modern management benefits, provided by NGW/NGE

Improve end user experience

Quickly solve issues with automated and data-driven support services

Consistently manage existing and emerging

Empower a strong and collaborative ecosystem

Add protection across the Zero Trust security model

Implement secure remote work scenario

About Synergy Advisors

Synergy Advisors is a premier Microsoft Certified Partner that specializes in Microsoft 365, Identity, Azure B2C and B2B Collaboration, Security, Management, and Cloud technologies. We help you digitally transform and implement a more secure collaborative infrastructure, reduce your IT costs, and meet your regulatory requirements through our comprehensive portfolio and experience in consulting and managed services.
