

# Microsoft Teams Voice Airlift

## Call, chat, meet and collaborate in a single app

You're probably already using Microsoft Teams, but did you know that you can use Teams as a complete voice solution? With Teams Voice, your workforce is ready to make and receive PSTN phone calls, no matter where they are.

**Our Microsoft Teams Voice Airlift engagement will get your organization up and running with Teams Voice fast.** You'll get a deep-dive into Teams calling capabilities, a chance to "kick the tires" using Teams Voice in your environment, as well as a comprehensive plan for a full Teams Voice deployment.

## What's in the workshop:

- Organization Readiness Assessment
- Network Readiness Assessment
- System configuration and validation
- Administrative training
- End-user training
- Pilot deployment and remote remediation
- Deployment planning session

## Empower your organization with the top-rated voice solution

### Steps to get started:

- Schedule a free interactive productivity experience to learn more about Microsoft Teams
- Conduct a Microsoft Teams Voice Proof of Concept
- Deploy to the enterprise and enable your hybrid workforce
