PRIVACYENGINE PRACTICAL DATA PRIVACY SOFTWARE

PrivacyEngine is the leading data protection software as a service solution for all your organisation's data privacy management, monitoring and compliance needs.

We have put all our data protection experience and expertise into one platform, to save you time and money. With PrivacyEngine you can get your data privacy program up and running in less than two hours. Be confident managing compliance with regulations including the General Data Protection Regulation (GDPR) and the California Consumer Privacy Act (CCPA). Save thousands annually in legal fees and halve the amount of time it takes to complete many data privacy-related tasks.

PrivacyEngine is the only data privacy tool you will ever need. It is the all-in-one platform for Data Privacy Management, Stakeholder Training, and Vendor Assessment with fully integrated modules including:

GDPR Mandatory Logs:

The PrivacyEngine Record of Processing Activity (RopA) Log records all the ways in which you use personal data, giving you peace of mind when it comes to GDPR compliance, with the added value of identifying associated data protection risks.

Data Protection Impact Assessments:

PrivacyEngine can cut the time it takes to conduct fully complaint DPIAs by up to 50%, which means faster project implementation and shorter time to value for your organisation.

Data Subject Access Request Management:

PrivacyEngine includes full Data Subject Access Request (DSAR) functionality that's recognized as the best on the market. It is intuitive, collaborative, complete and complaint.

Learning Management & Training:

The PrivacyEngine Learning Management System covers all your data privacy training needs, and tracks progress to elevate data privacy awareness and engagement across your entire organisation.

Vendor Assessment:

Quickly identify, manage and mitigate the significant data protection risks associated with third party vendors when they process personal data on your behalf.

Risk Management & Mitigation:

PrivacyEngine enables data privacy teams to quickly identify potential problems, and to cooperate across the organisation to fix the issues.

Dedicated Support:

Save thousands annually in reduced legal fees while ensuring you get the best data privacy, program, policy, and compliance guidance.

Reports & Analysis:

Automatically generate reports to track Data Protection program and usage of the PrivacyEngine platform.

Document Management:

Use the Document Management templates to create tailored policies, or upload and manage your existing documents with our version-controlled approval process.

Retention Database Integration:

Instantly access the retention schedules for hundreds of different countries and U.S sates and over 100,000 retention periods. This is integrated completely into PrivacyEngine through our RoPA and search pages.

Privacy Pulse:

Instantly access insights on Data Privacy news and releases from around the globe in one place.

The Right Choice for Data Privacy Compliance:

Eliminate Compliance Worries:

PrivacyEngine simplifies data privacy compliance for organisations large and small, no matter where they are in the world, reducing the risk of data breaches, compliance violations and potential fines.

Save Time & Money:

With PrivacyEngine you can get your data privacy programme up and running in under two hours. Your subscription gives you direct access to our data privacy experts, saving the average business €10,000 to €50,000 a year on lawyers' fees alone.

Build a Culture of Compliance & Trust

Access 100s of hours of online data-protection training to develop and maintain employee awareness, as well as professional training and certification for data privacy leadership.

PrivacyEngine is trusted by 100s of businesses, government agencies and NGOs in over 40 countries. Go to https://www.privacyengine.io/en/ to find out how PrivacyEngine can help your organisation.
