Migrate Dynamics NAV to the Microsoft Azure Cloud

Dynamics NAV on the Microsoft Azure Cloud

Challenges

Companies face rising costs of keeping their Dynamics NAV system on-premise including server maintenance, annual licensing, and system upgrades.

- IT department is short on resources – can't support specialized applications
- On-premise server costs continue to rise
- Version of Dynamics NAV is outdated and upgrade to new hardware/software would be costly

Ideal Solution

Migrating Dynamics NAV to the Microsoft Azure Cloud. Outsource support, maintenance, and upgrades for one low monthly fee.

- Owned servers will need major maintenance
- Missing out on functionality released in a newer version of Dynamics NAV
- IT department does not have the specialized knowledge required to support an ERP application

Desired Outcomes

A more secure and up-to-date Dynamics NAV environment that doesn't require server maintenance and other IT support.

- Retire on-premise server
- Lower total cost of ownership
- Flexible user licensing
- No IT support required

Migrate Dynamics NAV to the Microsoft Azure Cloud with Syvantis Technologies

Improve security and increase finance department productivity by migrating Dynamics NAV to the Microsoft Azure Cloud. Get NAV on Azure starting at only $149 per user/month.

Scalability

- Keep costs down by adding or removing licenses on a month to month basis
- Add modules and additional functionality at your convenience
- Scale up or down depending on business seasonality

Overarching Security

- State-of-the-art datacenter security
- Industry-standard data encryption protocols
- Threat protection services

Ease of Deployment

- Get up and running in 4 weeks
- Limit downtime by going live over the weekend
- Minimal IT involvement required

Migrate Dynamics NAV to the cloud with Syvantis Technologies + the Microsoft Azure Cloud

Reduce costs and increase productivity with multi-tenant Dynamics NAV hosted by Syvantis Technologies with the power of the Microsoft Azure Cloud. This solution relieves unnecessary costs associated with on-premise server upkeep and downtime associated with an outdated system. Dynamics NAV on Azure guarantees 99.95% system uptime with no associated maintenance cost.

Solution Alignment

Cloud Protection

Dynamics NAV is more secure on Azure thanks to industry-standard data encryption protocols and threat protection services.

Advanced Accessibility

Access Dynamics NAV with full functionality through any web browser using a HTML5 web client or through Remote Desktop Services.

Enhanced Scalability

Leverage the scalability of the Microsoft Azure Cloud with Increased capacity for database storage and seasonal needs.
