

Copilot Studio proof of concept

Elevate your AI assistants, automate responsive action, and improve employee and customer interactions using Copilot Studio.

Price starting at

\$34,000

2–4-week engagement

Move forward with generative AI and rapidly activate the potential of your workforce, with this accelerated proof of concept. Harness your data and make it more digestible for your end-users in a few short weeks.

Our proof-of-concept (PoC) offers a targeted approach to your Copilot Studio implementation, focusing on the areas most impactful for your business. We work closely with your team to identify critical processes and routine tasks that can benefit from Copilot Studio automation, to simplify your operations in a single, comprehensive engagement.

Designed for organizations seeking to unlock the capabilities of AI-powered solutions, Copilot Studio is the best-in-breed, AI-assistant tool from Microsoft – ensuring a swift and seamless integration into your environment. Simplify your operations and reduce manual workloads, allowing your team to focus on more complex and value-added functions.

Let our experts guide you to accelerate business growth, improve employee and customer satisfaction, and drive efficiency, with MNP Digital's Copilot Studio proof of concept.

Expected outcomes

- ✓ Establishing vision and business value for generative AI
- ✓ Identification of immediate use cases for Copilot Studio automation
- ✓ Development of a Copilot Studio proof of concept
- ✓ A roadmap for a full, scalable Copilot Studio implementation
