

# Azure Application Modernization Readiness

---

Maximize the value of your applications, increase customer engagement, and improve performance by modernizing your apps on Azure.

## 2-Week Assessment

Unsure of your organization's preparedness when it comes to application modernization on Azure? Our 2-week assessment will not only help you determine how ready you are, but we'll work with you to ensure your app modernization efforts have a predictable and measurable return on investment.

Our goal is to understand your strategic initiatives and then provide you with an actionable roadmap for modernization to propel your business into the future with confidence. Our assessment framework has been designed to help organizations of any size realize the power of the Azure platform and services to achieve their goals.

## Key Benefits

At the end of this engagement, you will have the following:

- ✓ Current environment state assessment
- ✓ Azure migration/modernization opportunity ranking
- ✓ Migration and innovation report
- ✓ Azure migration/modernization applications roadmap
