

Azure Migration Readiness Assessment

Reduce risk, lower costs, and maximize the value of your investment by assessing your cloud readiness.

2-WEEK ASSESSMENT

Before your Azure migration, it's critical to understand your current environment, potential usage, and unforeseen roadblocks in order to drive the most business value. Accelerate your time to the cloud and roadmap your migration strategy with our Azure Readiness Assessment. Aligned with Microsoft's Cloud Adoption Framework, it provides you with an analysis of where you are now and what your next steps should be.

We perform an audit of the workloads running across your organization to gain in-depth understanding of resource utilization, required to build an execution strategy that includes a cloud adoption roadmap customized to your specific business objectives. We also create a detailed TCO and cost estimate with options for "lift and shift" and Azure-optimized scenarios.

Key benefits

At the end of this engagement, you will have the following:

- ✓ Azure migration implementation roadmap
- ✓ Business value outline and estimated ROI
- ✓ Security & compliance outline
- ✓ Cost control & governance
- ✓ Operations integration plan

What's Included

To be tailored to your organization's needs.

	1. Cloud Advisory & Discovery Workshop	2. Opportunity Identification & Ranking	3. Opportunity Assessment
