

Digital transformation of operations

For Petrol stations

Your goal - Consistent execution!

Team

- Familiar with changing guidelines
- Complies with standards
- Fulfils duties on time
- Reports accurately & completely
- Adapts to feedback

Managers

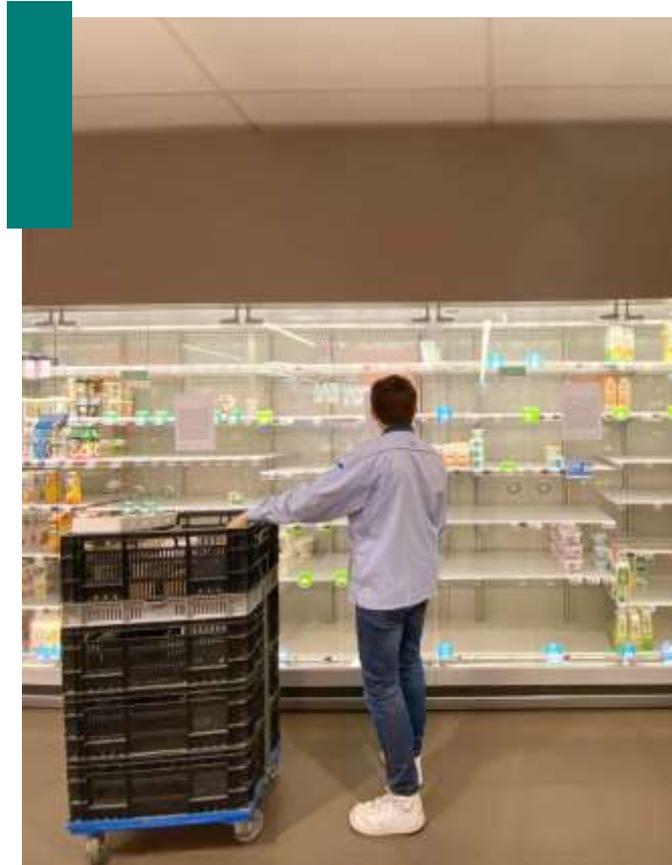

- Receive real-time reporting
- Give immediate feedback
- Base decisions on high quality data

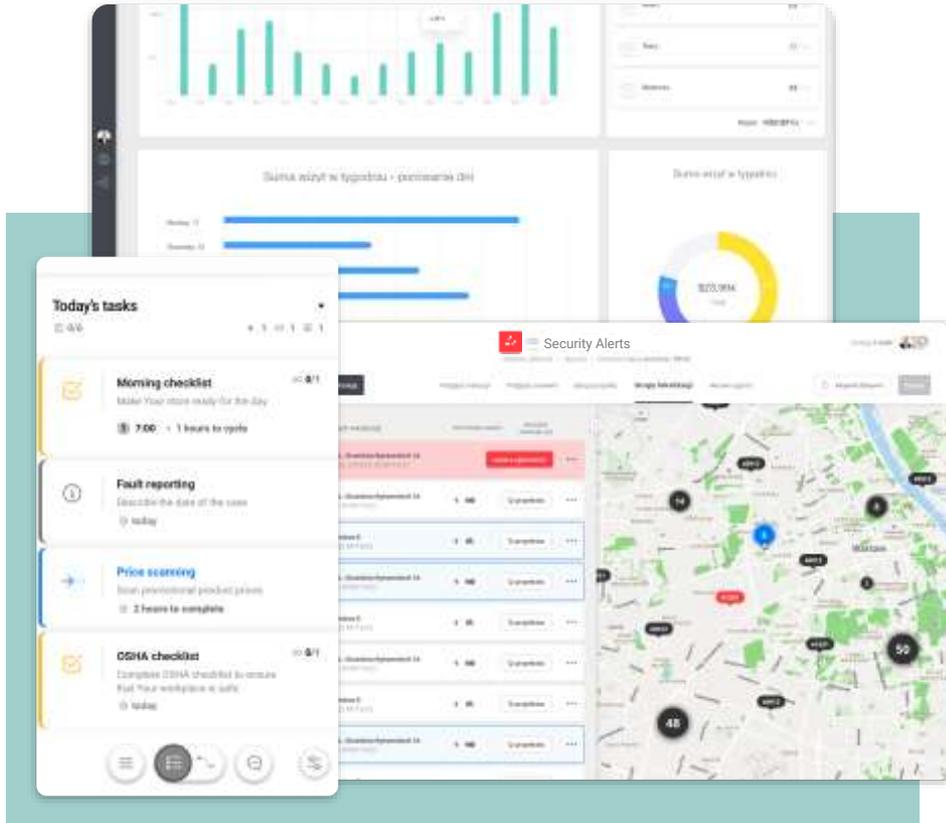

Why you fall short?

Employees struggle with

- Different formats and channels of communication (SMS, e-mail, telephone, WhatsApp, other chat-apps etc.)
- Lack of task notifications and prioritisation
- Limited feedback from managers and colleagues
- Lack of easy access to instructions and guidelines

What is TakeTask?

“Retail is detail”

TakeTask is a no-code platform that simplifies management of tasks to ensure consistent and efficient execution on a large scale across many locations simultaneously, for any industry with complex field ops

What we enable?

For managers:

- Easy and highly-customisable setup of processes - no IT support required
- Efficient allocation of assignments
- Objective verification of completed task
- Transparent overview of task completion
- Real-time access to high quality data

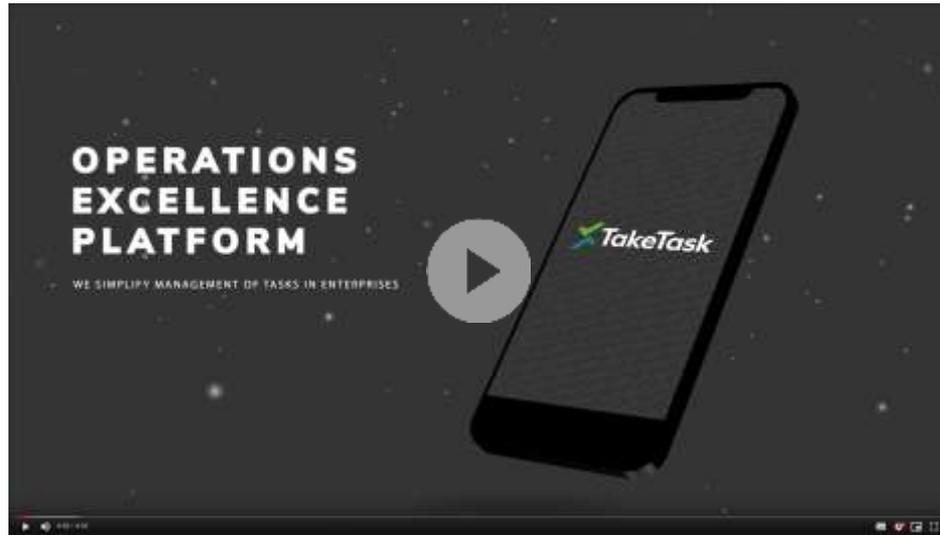

For employees:

- Unified communication of tasks
- Prioritised list of assignments
- Instant feedback from managers
- Trainings and guidelines linked with tasks

How it works?

Operations Excellence and Field Force Automation

[Watch video](#)

What do you achieve?

Benefits

Higher sales - fuel prices margin optimisation, lower stockout, proper shelf layout, implementation of promotions

Reduced losses - regular cleaning, temperature check, expiration date checks

Customer satisfaction - fresh food products, lower OOS, consistent shelf layout

What do you achieve?

Benefits

Work efficiency - better communication and prioritisation of assignments

Faster execution - accessible guidelines, automatic notification, easy reporting

Better decisions - real time, high quality data, A/B testing

Areas we optimise

Operations

- Food safety and cleanliness
- Regular and self-audits
- Maintenance and malfunction procedures

Marketing & Sales

- Competitors fuels prices monitoring
- Merchandising and in-store promotions
- Internal and competitors prices
- Customer feedback and support

Other

- Human Resources and employee motivation
- Employee innovations and best practices
- Logistics and stock control
- Project management facilitation

Promoted by key Tech / Gov't partners

Working with Microsoft as an independent Software Provider for Azure

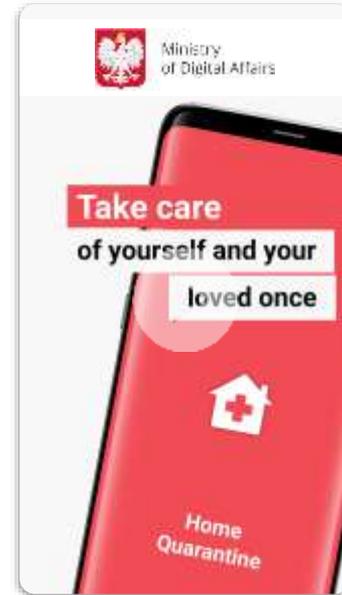

Implementing end to end solutions with telco providers

Enabling faster implementation of TakeTask on mobile devices

Delivering and supporting COVID Home Quarantine monitoring application for the Polish Government

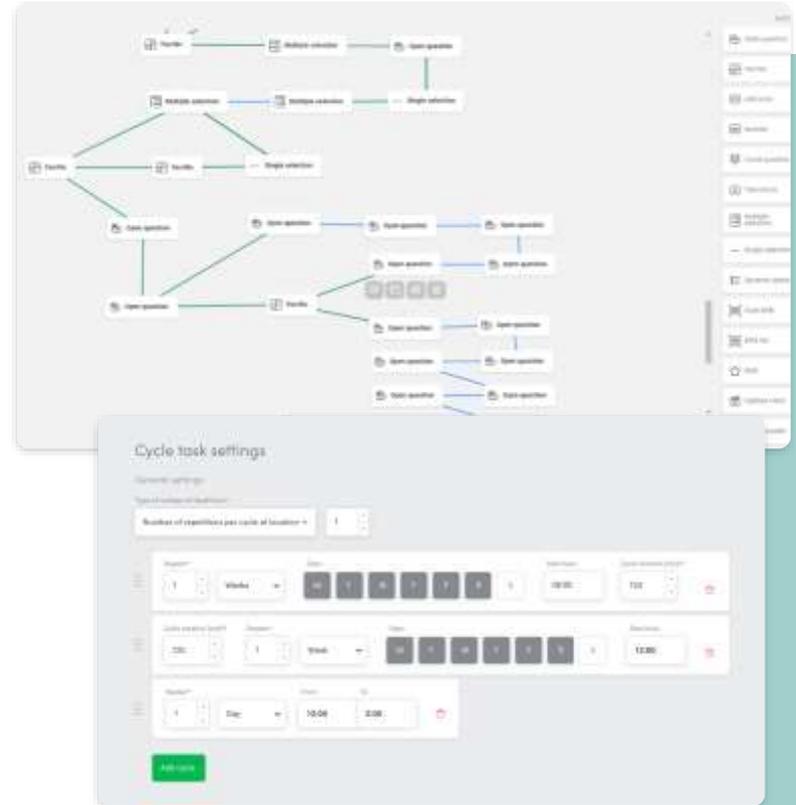

A vertical green bar on the left side of the slide, with a thin yellow line extending downwards from its base, ending in a small yellow circle.

Technical attributes of the system

Abstract geometric shapes, including overlapping squares and rectangles in various shades of green and blue, scattered across the bottom right portion of the slide.

Fast task preparation and distribution

-  Drag & drop task editor (25 action blocks)
-  Locations, users and equipment management tools
-  Personalised, dynamic content for locations and users
-  Timing management (one-time, recurring, triggered task)
-  Notification toolkit (e.g. push, mail, Teams, SMS, voice SMS)
-  Clear dashboards with all current projects and access to historical data

Quality control & fast reporting

GPS location

Timestamps

Pictures, videos, sound recordings

Integrated image recognition

Signature capture

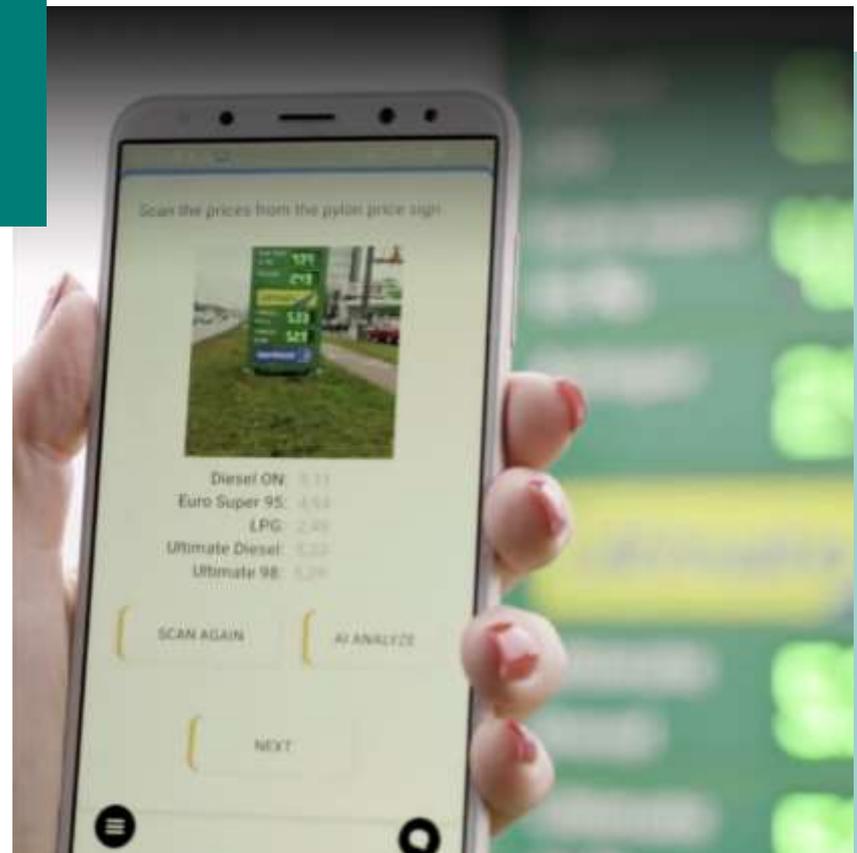

Built-in OCR

ABBYY

EAN and QR code scanner

SCANDIT

Secure environment

Microsoft technologies (.Net, Xamarin)

Dedicated Azure cloud instance for your data

GDPR ready

Online and offline mode on mobile application

Customisation

 Integration with systems and databases
- via API or file integration (e.g XML)

■ Client's

■ Third party

 IoT ready

 White label – customer's branding

 Multi-language

TakeTask free trial

We offer a **2-week free test-simulation** on your internal process

Dedicated Project Manager

Identifying quick-win areas of implementation

**Transform your
operations now**
