

Azure Foundations Assessment

The Azure Foundations Assessment helps companies plan their move to the cloud with confidence. Tallan will provide broad datacenter analysis, identifying and prioritizing Azure migration candidates complete with cloud-consumption cost estimates, real-time performance data, a cloud readiness report and recommendations for Governance.

During the Engagement

Datacenter Modernization

Capture key foundational elements to support datacenter improvement to help users reduce cost, improve service levels, governance recommendations, and drive business agility.

Microsoft Azure & Cloud Profiling

Provide an Executive data summary on server and application performance to support a detailed cloud strategy, Total Cost of Ownership, and CAF Governance analysis.

Data Platform Modernization

Facilitate future planning with detailed performance reporting, virtualization architecture, and support timelines to orchestrate end-of-life transitions and product innovation.

Experience Talent-Driven Innovation

Founded in 1985, Tallan provides technology and business process consulting services to enterprise and mid-sized companies, as well as government entities, with a focus on Custom Development, Portals and Collaboration, Business Intelligence, Application Integration, Mobile Platforms, User Experience, Ecommerce, Web Development, and Cloud Services.
