

# DevOps Assessment

Create your road map to move to Azure DevOps and improve your best practices around your entire DevOps Cycle.

Timeline: 1 Week

## Agenda

- Create DevOps pipeline best practices for Azure DevOps
- Walk through current DevOps environments and action items needed to move to Azure DevOps
- Create and use test workloads as a proof of concept

## Deliverables

- A DevOps pipeline strategy
- Branching/Merging strategy document
- Azure DevOps Team projects structure document
- Define the different stages we are going to use to structure the work and the builds
