App of the Future

Visualize the possibilities of your applications' future on the Microsoft Azure Cloud

"The next decade of economic performance for every business will be defined by the speed of their digital transformation."

Satya Nadella, Microsoft

The first step in your transformation journey

Leverage our envisioning engagement to move forward in your digital transformation journey with confidence.

Our Delivery Process   🕐 **Duration: 10 Days**   💲 **Cost: $10,000** (frequently funded via Microsoft)

Research and discovery workshop to understand and document business requirements

»

Story mapping workshop to define user stories for best-in-class user experience

»

Design review session to present the proposed experience

»

Technical review session to define and verify a system architecture

Our Deliverables

Product UX Designs

Effective user-centered designs with wireframes for the future state of the application.

Technical Architecture

Technical blueprint for review with key business stakeholders.

Estimated Product Backlog

Identified and documented feature prioritization based on project roadmap, with cost estimates.
