MACHINE LEARNING OPERATIONS

Bring your models into production, keeping them fresh and relevant, with tracking and change management. MLOps enables most deployments as timely as hours or days – not months!

WHAT TO EXPECT

Agenda

- Co-creation session to prioritize data science use-cases
- Deploy Azure Services that power the MLOps solution
- Onboard your first ML model to the solution
- Implement model monitoring methodology

Deliverables

- Executive brief outlining vision and MLOps roadmap
- First model deployed to full production environment
- Ongoing Production ML and MLOps coaching services
- Model monitoring and retraining managed service
