

Make Hiring Easier and Faster

Talview has partnered with Microsoft to increase collaboration and provide interview intelligence during the hiring process. With our game-changing Microsoft Teams integration, we provide HR and talent acquisition leaders with powerful real-time collaboration capabilities and easy access to all candidate details in a single place. "With a new integration for Microsoft Teams from Talview, customers can take another step forward to help improve talent acquisition," said Mike Ammerlaan, Director, Microsoft 365 Ecosystem at Microsoft. "Talview builds on Teams' collaboration capabilities by providing increased efficiencies for enterprises and organizations worldwide as they grow and scale their businesses."

Get Started Quickly

Increase adoption by using tools already familiar to your staff. Install the Talview integration from the Microsoft Teams store in minutes or have your Office 365 administrator push out the integration to users.

Increase Collaboration

Ensure that everyone is on the same page. Bring the entire recruiting and hiring team together via a Teams chat before, during, or after a video interview.

Share Data in a Single Place

Keep everyone on the same page regarding candidates. Host video interviews in Teams with all feedback automatically synced into Talview and your ATS for a single source of truth.

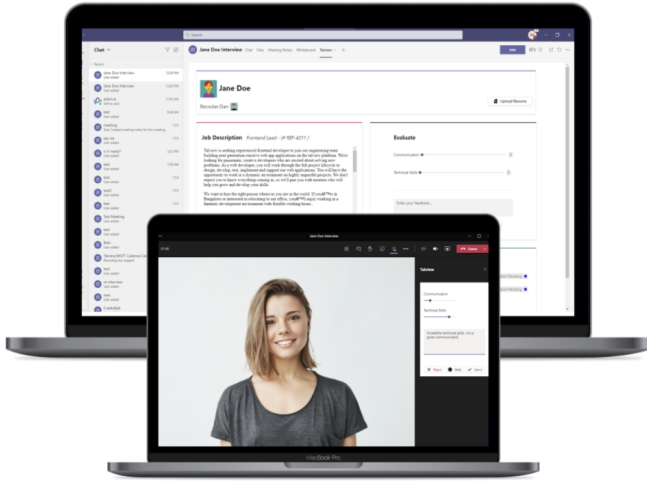

Save Time with Automated Workflows

Ease the process of scheduling interviews. Interviewers can use Outlook's free/busy scheduling capabilities to schedule interviews within Teams.

Up to 30% improvement

in a company's productivity by using innovative business collaboration techniques.

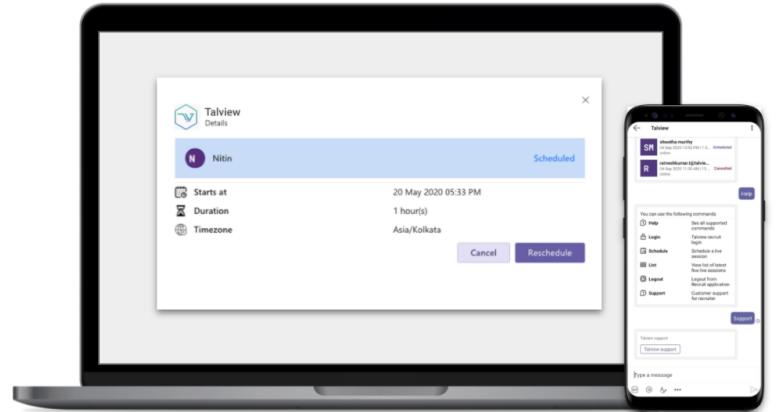

Talview Interviews and Talview Chatbot apps are available via the Microsoft Teams app store. They are designed to increase collaboration among your hiring and recruitment teams through improved scheduling and selection processes.
