Do you need the
Golden Path?

Golden Path

Vision

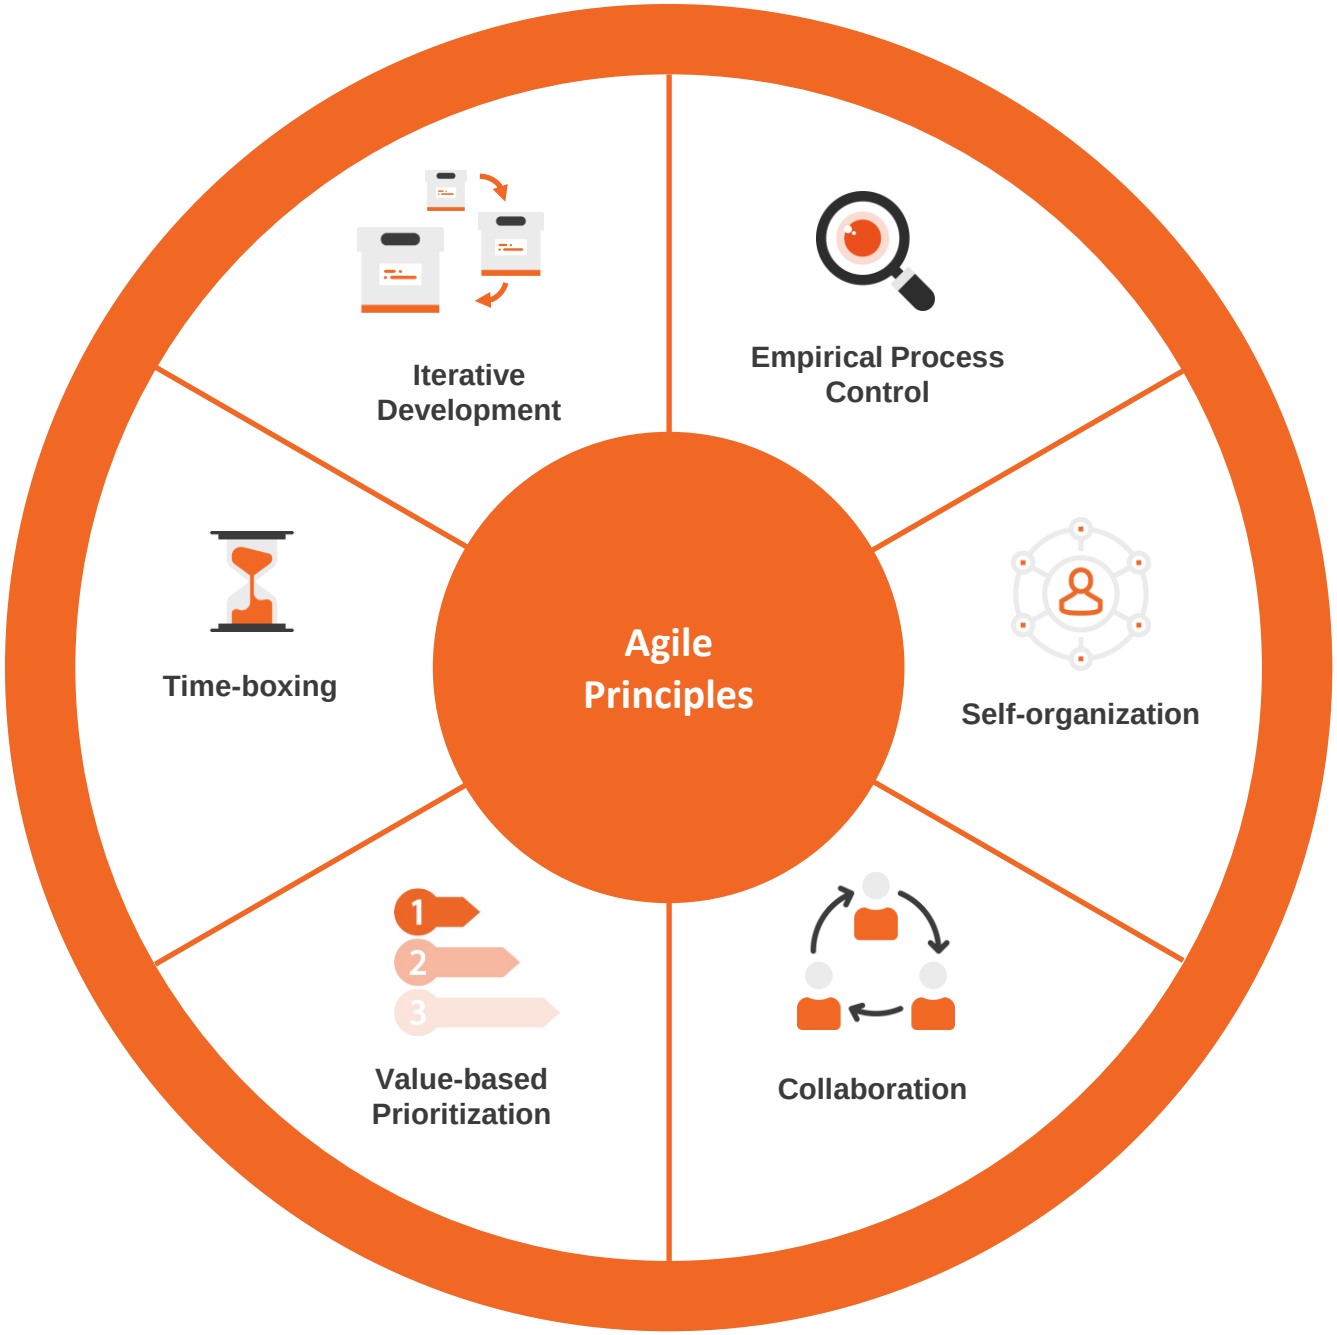
The Business delivers (new) features with one push of the button, without noticeable downtime for customers.

BizDevOps

Goal

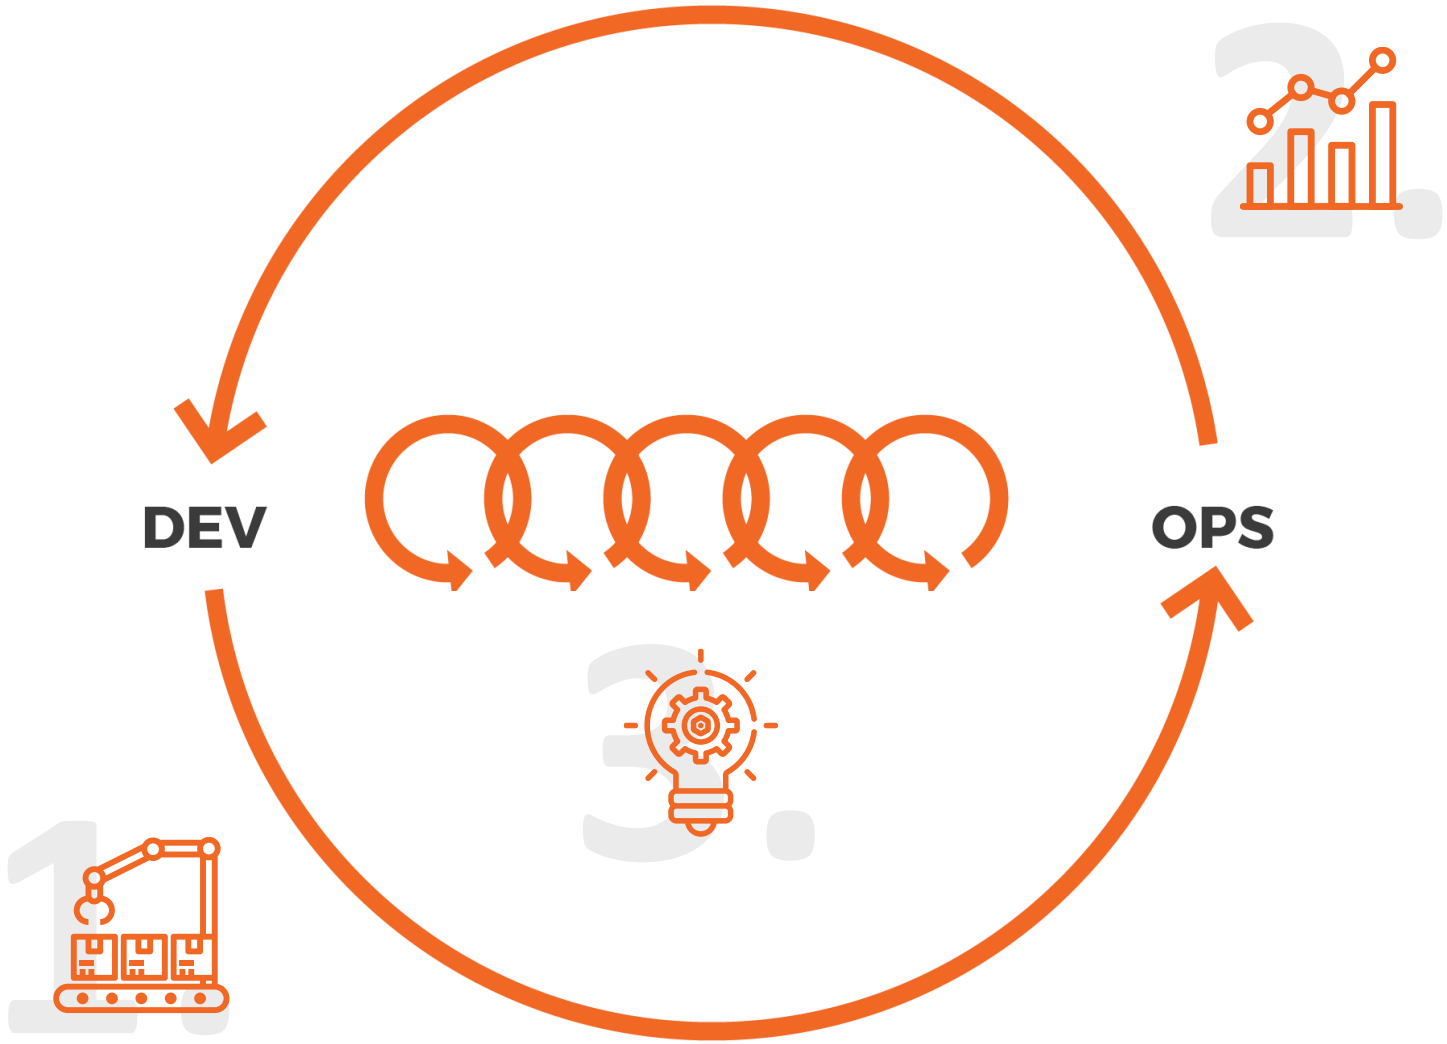
“Your job as VP of IT Operations is to ensure the **fast**, **predictable**, and uninterrupted **flow of planned work** that delivers **value** to the **business** while minimizing the impact and disruptions of unplanned work, so you can provide **stable**, **predictable**, and **secure** IT service”

Quote – The Phoenix Project
Gene Kim, Kevin Bear & George Spafford



Agile Principles

BizDevOps



The Golden Path

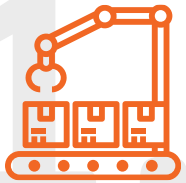
Facilitates in all tools and procedures to create, maintain and release features with a **“production first”** mindset.

100% compliant with company regulations and without noticeable downtime for customers.

Vision

The 3 Ways

1.



The Principles of Flow

Measured by:

- Planning
- Work in Progress
- Number of Handoffs

2.

The Principles of Feedback

Measured by:

- Quality
- Reliability
- Safety

3.

The Principles of Continual Learning and Experimentation

Measured by:

- Resiliency
- Adaptability
- Satisfaction

The Golden Path

Facilitates in all tools and procedures to create, maintain and release features with a **“production first”** mindset.

100% compliant with company regulations and without noticeable downtime for customers.
