

## Move away from clunky, unreliable spreadsheets and excel your business with Excellytics

### WHO WE ARE

We are experts in cloud, data, machine learning and artificial intelligence. We unlock value from data, delivering actionable business insights from data you can trust. – From developing more efficient processes that save time and money to creating new technologies that help solve global and social issues. Whatever your better is, we're here to help you bring it to life. With smart technology, clever strategy, creative problem-solving and talented people, we deliver solutions that make a difference to our customers and the world.

### WHAT WE OFFER

Our Excellytics solution will improve data presentation and reporting methods; Unlike current manual error-prone practices.

Our solution creates a centralised, safe & secure environment, displaying validated data through visualisation tools for use in reporting and automations.

This is all backed by our proven expertise in delivering business value from data you can trust.

#### ASSESSMENT

- Start with a technical readiness assessment mapping out complexity of spreadsheets.
- Run Ideation Workshop to align business problem with all stakeholders.
- Agree on vision, outcome and define user stories

#### PRODUCTION

- Identify/Provision cloud storage solution.
- Transition from spreadsheet to cloud storage and PowerBI visuals.
- Basic data transformations applied to replicate current spreadsheet output.

#### DEVELOPMENT

- Map out further automations.
- Discover any additional data sources.
- Present future data possibilities.

Excellytics is an affordable solution that helps customers improve the way they consume and present data. Excellytics delivers high-class visuals without the need of spreadsheets. It is an affordable solution where a data lake is not required or delivered. The data will be sourced from low-cost Microsoft cloud solutions such as OneDrive, SharePoint or Azure Blob.
