

## Security Workshop for Customers using Microsoft 365

We are excited to invite you to our upcoming Security Workshops for Customers below 300 users. In this workshop, you will learn about the security and compliance features available in Microsoft 365 Business Basic, Business Standard, and Business Premium, and how they can help you protect your data and devices, comply with regulations, and manage risks.

The workshop will cover topics such as:

- Identity and Access Protection
- Data Loss Protection from Emails, Documents, Microsoft Teams
- Threat Protection for Emails, Documents , Devices, Teams
- Device Management
- Compliance and Security

The workshop will be conducted on Microsoft Teams and will last for 60 minutes. You will also have the opportunity to ask questions and interact with our security experts. Each workshop is restricted to not more than 5 Customers so that we can interact in detail .

To register for the workshop, please click on the link below and fill out the form.  
Hurry, spots are limited!
