

### ABOUT US

From the cloud to your desktop, clients trust us because they know we will not only deliver a relevant solution for today, but one that allows them to evolve and succeed over time. Powered by a passionate commitment for an exceptional customer experience, TechTrend is the choice of those who seek a partner, not a vendor.

## GITHUB

# TO GOVERNMENT

GitHub is a code hosting platform for version control and collaboration. It lets you and others work together on projects from anywhere. Hosted and managed in a FedRamp approved government cloud, TechTrend offering is built specifically to support the government.

### Review Code

#### Seamless Code Review

Code Review is the surest path to better code, and it's fundamental to how GitHub works. Built-in review tools make code review an essential part of your teams process.

### Community Management

#### The Human Side of Software

Behind every project is a group of living, breathing humans, which makes building software as much about managing people as it is about code. We can help support your people.

### Code Hosting

#### All Your Code in One Place

GitHub is one of the largest code hosts in the world with over 52 million project. Private, public, or open source, all repositories are equipped with tools to help you host, version, and release code.

### Document

#### Documentation Alongside Your Code

Quality documentation is a hallmark of any healthy software project. On GitHub, you can create well-maintained docs and make sure they receive the high level of care they deserve.

# SECURITY WITHOUT COMPROMISE

## TechTrend - GitHub

### Support critical policies

Know who authored code or pushed a commit, automate compliance workflows, and protect branches from accidental changes.

### Choose your authentication method

Encourage teamwork while enforcing essential controls for employees and contractors with support for two-factor authentication and SAML single sign-on.

### Gain visibility into how teams work

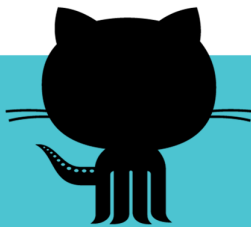

Help developers work better together with data from audits and monitoring dashboards.

## CONTRACT VEHICLES

GSA STARS II	GS-06F-1067Z	<ul style="list-style-type: none"><li>o Easy Procurement vehicle for IT services</li><li>o Directed Task Order of up to \$4M</li></ul>
GSA Schedule 70 (IT)	GS-35F-0525W	<ul style="list-style-type: none"><li>o Providing IT products, services, and solutions</li></ul>

## GITHUB

GitHub provides the organization real-time insight into its development projects. Members can be granted read, read-write, or admin-level access to repositories.

## CLOUD

Microsoft Azure is a trusted government cloud offering with 50 compliance offerings. Azure has been recognized as the most trusted cloud for U.S government institutions.

## TECHTREND

TechTrend offers the GitHub functionality you want. It's hosted in a secure, FedRamp-approved cloud with custom security integration. Support by our systems intergration expertise.
