

Microsoft Azure Platform Migration

4 Week Assessment

TekLink is offering a 4-week Microsoft Azure Platform Migration assessment and provide a cost-effective migration roadmap.

Key Solution Features:

- Unified platform showing your assessment report and migration roadmap
- Leverages our tool based assessment and proven migration approach
- Our solution will achieve your security and compliance requirements

Deliverables

- Assess your organization's current architecture
- Identify security and compliance goals
- Align partners, vendors, and other stakeholders on migration roadmap
- Provide Cost-effective Migration approach based on business and downtime requirements
- Provide target landscape on Microsoft Azure with network, sizing, and cost estimates
- Provide Migration Roadmap and a technical architecture and sizing document for your target landscape meeting security and compliance requirements
- Identify the templates which can be used for automated migration process

Assumptions

Consulting Pricing is provided based on the following assumptions:

- Up to a 50 server landscape
- SAP and Microsoft applications
- Microsoft SQL, Oracle, and HANA databases
- Virtual machines

TekLink's Microsoft Consulting Pricing varies based on actual requirements. You can expect a range of \$18,000 to \$25,000.
