TEKSOUTH

Application Development: 3-Day Assessment

During a three-day assessment, Teksouth will review your current environment, gather requirements, and provide an estimate of cost and timeline to move forward. This offering provides software development expertise for Azure, .NET, and SQL Server based solutions in Azure, on premises, or using hybrid approaches

Day 1 - Assessment

9:30 am to 10:30 am	Team introductions
10:30 am to 4:00 pm	Assessment of current processes

Day 2 - Future State Planning

9:30 am to 2:30 pm	Discussion of future state plans
2:30 pm to 4:00 pm	Develop high level requirements documentation

Day 3 - Findings Review

9:30 am to 10:30 am	Review of findings
10:30 am to 11:30 am	Review of High level requirements documentation
1:00 pm to 2:00 pm	Cost and timeline estimates for next phase
2:00 pm to 3:00 pm	Determine next steps

Deliverables

High Level Requirements Documentation
Estimate of cost and timeline
