

MICROSOFT WINDOWS 11

Ready to Upgrade to Windows 11?

New features to unlock your team's productivity and creativity

End of Life is approaching for Windows 10. Do you have a plan to upgrade?

Microsoft is continuing to support Windows 10 through October 14, 2025. As a Microsoft Solutions Partner specialized in modern work, TEKsystems Global Services can walk you through how you respond to Windows 11, what options exist for your team (i.e., deployment automation, virtual solutions), and how to limit your exposure.

Why make the switch to Windows 11?

Let TEKsystems Global Services sit beside you in the jump seat to navigate through the endless advantages of Windows 11. Moving to Windows 11 offers several compelling business drivers for organizations and key reasons to transition to this new operating system.

Enhanced Productivity & User Experience

- **Inclusive AI-powered Experiences:** Windows 11 introduces AI-powered features like Copilot, which assists users in various tasks, making work more efficient and streamlined.
- **Immersive Workflows:** The new interface and features enhance user experience, allowing employees to be more productive.
- **Personalization:** Windows 11 provides unmatched personalization options, allowing users to tailor their workspace to their preferences.

Compatibility & Coexistence

- **Built on Windows 10 Code Base:** Windows 11 is natively compatible with software and solutions used in Windows 10 environments.
- **Coexistence with Windows 10:** Windows 11 and Windows 10 can coexist, backed by a common set of security and management capabilities delivered by the Microsoft cloud..

Security Improvements

- **Protection by Default:** Windows 11 leverages modern hardware to deliver the most secure Windows ever. It includes features like TPM (Trusted Platform Module) and virtualization-based security.
- **Phishing Safeguards:** With built-in phishing safeguards, Windows 11 helps protect against evolving threats.
- **Passwordless Sign-in:** Windows Hello enables secure sign-in using face, fingerprint, or PIN, reducing reliance on passwords.

Management & Deployment

- **Cloud-based Endpoint Management:** Organizations can take advantage of cloud-based endpoint management capabilities offered in Microsoft Endpoint Manager.
- **Deployment Planning:** Creating a Windows 11 deployment plan, engaging with Microsoft and partners, and assessing readiness are crucial steps.
