SIPPIO CHARTER

SIPPIO commits to transparent, equitable and fair business practices across our ecosystem

SIPPIO's mission is to deliver superior user value in the cloud through automation

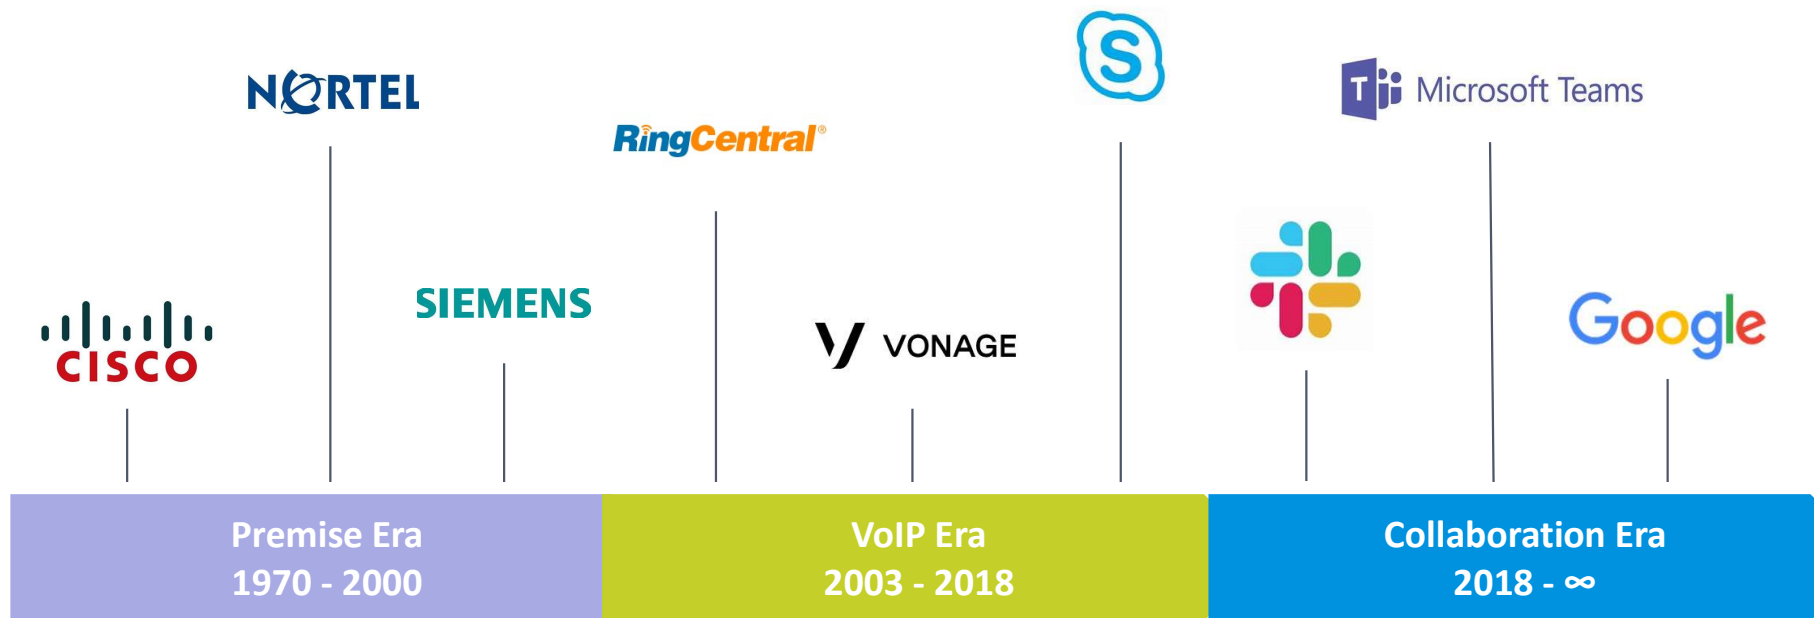

SIPPIO will be simple, transparent and integrated with the latest innovations

SIPPIO is 100% committed to a PaaS Model to offer voice solutions and options

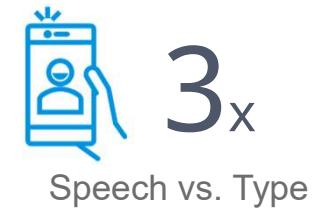

SIPPIO's Team exchanges ideas, gains input, questions and drives partner and customer success

“It took 50 years for traditional telcos to build and deploy 750m seats. This industry is now undergoing a paradigm shift which will migrate these users to collaboration in single digit years.” – Adam Cole, CEO, SIPPIO

ACTIVATE IN MINUTES

The screenshot displays the SIPPIO web interface with several overlapping windows. The top window shows the 'Setup' page with a progress bar and a 'Select Routing Policy' dropdown set to 'US-Policy'. Below it, a world map highlights regions. The middle window shows the 'Users' page with a list of users and a search bar. The bottom window shows the 'Numbers' page with an 'Inventory' table.

Customer Questions

- Are you seeking ease of deployment vs. building Direct Routing yourself?
- How would ability to opt in/out or up/down monthly meet your OPEX needs?
- What value would direct, single-call access to Voice Experts bring to your business?
- What are your migration plans for Microsoft Teams from traditional UCaaS or PBX?
- What are you hoping to gain from your adoption of your Microsoft Teams investment?
- Do you see value in using Microsoft Teams to activate and manage users?
