

Empowering Capacity Building Through Training, Assessment, Research, and Service Delivery

Telegenz is a content-agnostic platform designed for **real-time, expert-led skill development** that seamlessly scales into **service delivery**. By connecting learners, professionals, and clients with master trainers in live, interactive sessions, Telegenz bridges the gap between **training and practical application** across industries.

Two Functional Modes

1. Structured Session Mode

- Profession- and role-based interface
- Supports simultaneous training and service delivery
- Enables multi-disciplinary team engagement, virtual clinical placements, and interprofessional education

2. Assessment Mode

- Customizable for formative and summative assessments
- Supports OSCE exams, Entrustable Professional Activities, and virtual screening programs
- Ideal for interviews (HR and recruitment teams) and research (qualitative, quantitative, mixed-method)

Key Features

1. Structured Session Mode for role-based skill development and service delivery
2. Multi-disciplinary engagement and interprofessional collaboration
3. Assessment Mode for exams, recruitment, and professional evaluations
4. Versatile applications across healthcare, engineering, architecture, law, corporate learning, and more
5. Scalable delivery ensuring consistency and compliance across industries
6. Flexible research support for academic and industry studies

Target Users

1. **Healthcare & Medical Devices:** Clinicians, medical educators, simulation coordinators, device trainers
2. **Engineering, Aeronautics & Architecture:** Technical instructors, design teams, engineering trainers, project leads
3. **Corporate Learning & Development:** L&D managers, training coordinators, professional development teams
4. **Legal & Recruitment:** Lawyers, HR professionals, recruitment teams, interview assessors
5. **Education & Lifelong Learning:** Academic instructors, continuing education providers, skill mentors
6. **Research Professionals:** Academic and industry researchers conducting qualitative, quantitative, or mixed-method studies

Why Telegenz?

1. Live, synchronous training guided by your own trusted experts
2. Scalable learning-to-service workflows across diverse industries
3. Flexible, industry-agnostic platform designed for today's evolving professional needs
