# SAP on Azure

Microsoft's SAP on Azure solutions span the entire gamut of running SAP workloads in the cloud. Our open approach allows you to easily leverage and integrate your needs with our existing investments in SAP certified solutions.

## KEY USE CASES

### Secure and manage

Workloads with built in tools reduces management overhead for IT teams while giving us 24/7 reliability and business continuity.

### Improve agility

Scaling up or down in real-time to support our workloads as quickly as needed without the worry of hardware lock-in

### Futureproof for S/4HANA

Simplify the business processes, reduce the data footprint, and increase performance with SAP HANA in-memory database.

### Drive innovation

Digital transformation through artificial intelligence, machine learning, and IoT built into cloud services.

## WHY SAP on Azure

### PAY FOR WHAT YOU USE

budget efficiency and flexibility to respond to changing competitive and market conditions.

### REDUCED TCO

Organizations using the cloud have seen a 73% reduction in data center costs.

### ENHANCED DATA ANALYTICS

One of the biggest benefits of migrating your SAP environment to the cloud is the analytic capabilities of Azure. Managers can view real-time reports on consumer sentiment, consumer demand forecasts, product mix optimization, and more

### TECHNICAL SUPPORT

Your Azure subscription comes with 24/7 support from a team of experts

### SERVICE LEVEL AGREEMENT

Get peace of mind knowing your services are available when you need them with 99.9% uptime service level agreement.

### SIMPLIFIED IT MANAGEMENT

Reduce headaches by reducing your IT infrastructure. Content lives safely in globally distributed data centers with continuous backup and disaster recovery abilities.
